

## GIVEN A BOOST BY COMMITTEE

**Farm Correspondence Bill Ordered to Pass.**

**PRIZES OFFERED TO FARMERS**

**Twenty-five Thousand Dollars to Be Given to the Farmers of the State for the Best Showing in the Various Lines of Farm Work—Woman Suffrage in This State Not Yet a Dead Issue.**

St. Paul, Feb. 26.—The correspondence course in farming by the state farm school was given a big boost by the committee of the senate when the bill was amended and ordered to pass. The amendment provides \$75,000 for the establishment of the correspondence course, of which \$25,000 is to be offered as prizes to the farmers of the state for the best showing in the various lines of farm work.

The prize feature was suggested by Senator A. D. Stephens of Crookston. At present there is a prize system which is maintained by personal contributions. This will be supplemented by certain state prizes at the state fair and through the counties. The original bill was redrafted by the faculty of the farm school so that the instruction will be given as directly as possible to the individual farmer.

At present there is only one student for every 250 farms of the state in the state farm school, and only one for every forty-seven farms has attended the school since its foundation.

That six of the thirteen members of the judiciary committee who voted to kill the initiative and referendum bill gave written pledges before election to vote and work for such a measure was the charge that J. N. Johnson of Canby made before the house in the discussion which preceded the killing

of his bill. The statement caused something of a sensation, but it did not save the bill.

The judiciary committee reported the bill for indefinite postponement and four members presented a minority report asking that the bill be placed on general orders.

**Debate Became Warm.**

The debate on the motion to adopt the minority report occupied over an hour, and the many visitors who had come expecting to hear Admiral Evans address the house and were disappointed that he could not come, had the pleasure of listening to one of the warmest debates of the session on the bill.

On the roll call there were 45 for the motion and the bill and 68 against it.

Representative Adams of Fergus Falls tried, but failed to have the bill which changes the hour for the closing of saloons in cities of 50,000 or over from 11 to 12 o'clock taken from the tri-county delegation and sent to the committee on temperance.

Woman suffrage in Minnesota is not yet dead. When the committee report on Senator Ole Segeng's bill for indefinite postponement came up there was a small-sized storm at the railroad methods used by the elections committee in killing the measure, and the bill was referred again to the committee by a decisive vote.

Graduates of the St. Paul college of law and the state university law school will have to take examination for admission to the bar just as do the graduates of Columbia and Harvard if a bill presented by Senator Julius A. Collier of Shakopee becomes a law. He would amend the present law excepting graduates from the two Minnesota institutions so that all applicants will be under the rules of the supreme court, which require an examination.

**Tuberculin Test Favored.**

At a hearing before the house committee considering the Swanson bill abolishing the tuberculin test for cattle, Dr. Reynolds of the state agricultural college and a member of the state live stock sanitary board, insisted that Dr. Koch and Dr. Bank, the noted German and Danish authorities, respectively, had been misquoted by Senator Swanson, the author of the bill, and read quotations from those authorities to substantiate his position. He also read a letter from Professor Ravenel of the University of Wisconsin, who he said is a leading authority on the subject of the transmission of tuberculosis from the bovine to the human, in which the latter cited several cases in which this had been definitely shown.

Professor Andrew Boss of the agricultural college also spoke against the bill.

Why St. Paul opposes a packing plant in her front yard was shown to the committee of public health and pure food in the house by several of her citizens. The whole afternoon the committee listened to arguments for and against the plant.

Mayor Lawler said that this controversy was not prompted by petty jealousy and that if the Armour people had made any investments at the new site the people of St. Paul would be willing to take it off their hands and give them a bonus if they would locate farther away.

Wallace G. Nye, representing the public affairs of the Minneapolis Commercial club, said that the passage of the bill would defeat the hopes of getting an industry that would mean a great benefit to Minneapolis and some benefit to St. Paul.

**BOND GOVERNMENT RESIGNS**

**Interesting Developments Expected in New Foundland.**

St. Johns, N. F., Feb. 26.—The government of Sir Robert Bond has tendered its resignation to the governor, Sir William Macgregor, and it is probable that Sir Edward Morris, the opposition leader and formerly a member of the Bond cabinet, will be called upon to form a ministry. As Morris has no more supporters in the legislature than has Bond, there is intense interest in the probable developments of the next few weeks. Sir Robert Bond endeavored to induce Governor Macgregor to dissolve the legislature and order a general election, but the governor felt that a campaign at this time would injure trade. The governor hopes to induce the legislature when it meets on March 4 to vote sufficient money to carry on business regardless of political considerations and thus enable the colony to get along without a general election until later in the year.

**Tommy Mowatt Knocked Out.**

Kansas City, Mo., Feb. 26.—Tommy Mowatt of Chicago was knocked out in the third round by Phil Knight of Leavenworth, Kan., in what was to have been a ten-round go here. The men fought at catch weights, being about 133 pounds. From the start it was Knight's fight.

## WHAT COURT'S RULING MEANS

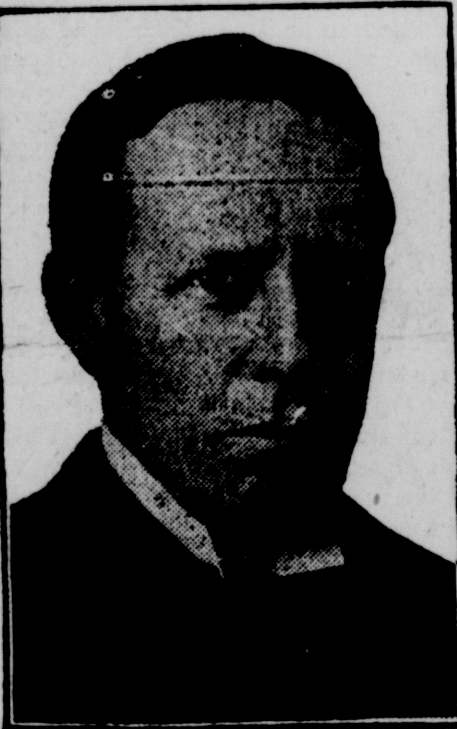

**Fine of Standard Oil Company Will Be Reduced.**

**TO EXPEDITE THE HEARING**

**Judge Anderson Rules That If Alleged Offenses Were Committed They Numbered But Thirty-six, Instead of Five Hundred, as Claimed by Attorneys for the Government—Maximum Fine Would Be Only \$720,000.**

Chicago, Feb. 26.—From Judge Landis' fine of \$29,240,000 to a possible maximum fine of \$720,000 is a far cry, but that is admitted to be the meaning of a ruling made by Judge Anderson in the retrial of the Standard Oil company of Indiana for alleged rebating. The ruling was informal and made for the purpose of expediting the hearing, and although the government has the privilege of presenting further arguments it is practically certain that there will be no change in the ruling when it is formally entered.

The decision of the court of appeals which reversed Judge Landis' eliminated the view of that jurist that each car lot of oil on which a rebate was accepted constituted a separate offense. There were 1,462 of these car

JUDGE A. B. ANDERSON.

lots, the freight charges for which were paid in thirty-six different settlements. Judge Anderson interpreted the decision of the appellate court, which he said served as his guide, to imply that these alleged rebates accepted after each of the thirty-six settlements constitute the unit of the offense. The appellate court did not state so explicitly, nor did it clear up the point whether the alleged offense was a continuous one, the whole forming a single violation of the Elkins law. The defense's argument that the offense, if any, was continuous.

**Not Regarded as Frivolous.**

Judge Anderson regarded as anything but frivolous under the decision of the upper court. However, he regarded the settlement basis as the logical one, and the government will proceed in the case on that assumption.

Judge Anderson's ruling was a severe blow to United States District Attorney Sims and his associates in the prosecution. He and his assistant, James H. Wilkerson, had argued that each shipment, of which there were 500, making possible a maximum fine of \$100,000,000, constituted an offense. This view Judge Anderson declared he could not understand. He said that it had not been made plain what comprised a shipment—a train load, a car lot or a gallon. He saw no reason why, if a train load, or a car lot, were regarded as a separate offense, the matter might not be further divided, making a hundred weight the unit, or a gallon, greatly increasing the number of offenses and magnifying the punishment. The division of alleged offenses, he said, seemed to fall naturally into thirty-six parts, or counts, each marked off by a money settlement. It was these settlements that rebates, if any, were made and received.

**New Eye Disease.**

A new disease, called "electric ophthalmia," is said to threaten all users of the electric light. According to two Dresden scientists, the damage is done to the eye tissues by the ultra violet rays of the electric light, and cataract may ultimately result. The same investigators have discovered a simple preventive for electric ophthalmia in the shape of yellow or green spectacles, which, they prophesy, will become universal as electricity comes more and more into use as an illuminant.

## OFFICEHOLDERS RECEIVED MONEY

**To Further Interests of Senator Stephenson.**

Madison, Wis., Feb. 26.—That state officeholders, present and past, state employees, federal officeholders, several prominent attorneys and others were paid money to further the interests of United States Senator Isaac Stephenson as candidate in the recent primary election was shown in a statement of election expenses filed by Rodney Sackett with the legislative committee investigating the senatorial primary. The making public of the list created quite a sensation. Among those who figured prominently in the list and the amounts received are: Levi H. Bancroft, speaker of the assembly branch of the legislature, \$250; J. W. Stone, state game warden, \$2,500; L. B. Bresser, member of the state board of control, \$2,100; W. G. Wheeler, United States district attorney, \$600; John T. Kelly, city attorney of Milwaukee, \$500; Rock Flint, United States marshal, \$80; George Gordon, an attorney, La Crosse, \$1,600; Solon Perrin, attorney, of Superior, \$3,000; D. E. Riordan, ex-state senator, \$1,300; C. C. Wellensgard, assemblyman, \$250.80; Hugh Lewis, doorkeeper United States senate, \$360; T. Purtell, state fire marshal, \$175. Others received smaller sums. Items described as "touchers" show that "old soldiers" and "heelers" received \$2.

Speaker Bancroft, the man who named the assembly members of the investigating committee, has been notified to be in readiness to testify upon call of the committee.

Quite a wrangle ensued early in the hearing over Assemblyman Ingalls' motion to subpoena all campaign managers. The motion prevailed by the usual vote of 5 to 3, the senate members voting against the motion. During the discussion of the motion, Chairman Marsh declared his belief that no selection of a United States senator would be made by the legislature until after the investigation had been completed.

Some surprise was occasioned over the announcement of the refusal of Senator Blaine to accept service of a subpoena summoning him to appear today with records he claimed to have early in the week.

**SHRUBB DEFEATS DORANDO**

**Englishman Easily Wins Race With Italian.**

Buffalo, N. Y., Feb. 26.—Leading his opponent from the crack of the pistol to the finish, Alfred Shrubbs, the English distance runner, defeated Dorando Pietri, the Italian, in a fifteen-mile race at the Seventy-fourth regiment armory. Every American indoor record from the first to the fifteenth mile was smashed. In the first mile Shrubbs took a commanding lead, which he gradually increased to three laps in the tenth mile. Dorando made several game efforts to regain the lost ground in the twelfth and thirteenth miles, but Shrubbs never allowed him to get more than fifteen yards away from him.

Shrubbs' time for the fifteen miles was 1:24:06½.

Shrubbs' lead at the finish was two and three-quarter laps. Dorando completed the fifteen miles, finishing in a sprint that brought applause.

**OBTAINED THE REDUCED RATE**

**But Educators Had to Hustle to Get It.**

Chicago, Feb. 26.—A special car, a call for volunteer passengers and the triumphant saving of \$10,000, brought the annual meeting of the department of superintendence of the National Educational association to a dramatic close.

Under the rules of the Western Passenger association the organization was compelled to agree to an attendance of 1,000 visitors to their meeting here in order to secure a reduced rate on the railroads. Dr. Winship of Boston, chairman of the department's transportation committee, discovered that there were but 930 visitors. Unless seventy more were forthcoming there would be no reduction in the rate for the return trip to various cities. The chairman did some hurried telephoning and found that the railroads were not inclined to take technical advantage of the educators and a special car was coupled to a regular passenger train bound for Michigan City, Ind. Then Dr. Winship mounted a chair in the Auditorium hotel, which was crowded with delegates, and called for volunteers to go to Michigan City in order that they might return promptly to Chicago in the capacity of visitors to the meeting.

"It will save \$10,000; it will save \$10,000," the doctor shouted repeatedly to collect a crowd, and then he explained that all expenses would be paid by the association.

"I'll go," responded several delegates, rallying bravely, and Dr. Winship continued after the manner of an auctioneer:

"Twenty-one I have; twenty-one I have; do I hear the twenty-two? Ah very good. Twenty-three, twenty-six, do I hear the twenty-seventh?"

Meanwhile other delegates took up the work. They approached commercial travelers lounging in the lobby and looking as if they had nothing to do—anybody who would go to Michigan City and back.

It was dangerously close to train time when the last volunteer was secured. Finally they returned, bringing with them the necessary reduced fare certificates, and the day was saved. Also, it is estimated, \$10,000.

**KLEIN ON WITNESS STAND**

**Accused Councilman Testifies in His Own Behalf.**

Pittsburg, Feb. 26.—The large number of witnesses called by the defense in the attempt to prove an alibi for Councilmen Klein and Brand necessitated the holding of a night session of court in the trial of Councilmen Klein, Wasson and Brand, and former Banker W. W. Ramsey on a charge of conspiracy as a result of the councilman's graft investigation. The prosecution closed its side of the case before the close of the morning session.

Klein, the first witness for the defense, testified that he and Brand had attended a meeting of the committee on the revision of salaries at city hall on the night when the detectives in the case assert they gave him \$500. He denied ever having received a dollar from Robert Wilson, the detective from Scranton, Pa., who was the chief investigator in the case.

Pierce Williams, assistant secretary of the chamber of commerce, testified that the accused men had never asked for money and that it was tendered to them. E. S. Dolph, the millionaire lumberman of Scranton, Pa., said he had given Wilson permission to use his (Dolph's) name while attempting to trap the councilmen.

## PROTESTANT LAYMEN HOLD A CONVENTION

**Church Workers Meet in Conference in Pittsburg.**

Pittsburg, Feb. 26.—What is declared to be the most important conference of the Protestant laity ever held in the United States was begun in this city today by representatives of a large number of men's organizations in the various churches.

The following church organizations are represented in the conference: Episcopal Brotherhood of St. Andrew, Interdenominational Brotherhood of Andrew and Philip, Baptist Brotherhood, United Presbyterian Men's league, Congregational Brotherhood, Methodist Brotherhood, Men's Movement of the United Brotherhood Church, Southern Presbyterian Brotherhood, League of Universalist Laymen, Canadian Presbyterian Brotherhood, Men's Movement in Christian Church and the Presbyterian Brotherhood of America.

One of the most important features of the conference will be the discussion of a proposition to arrange for co-operation of the various organizations in the larger cities as well as nationally with a view to unity and co-operation both in church work and municipal improvement. Another end suggested for the proposed federation is the raising of the male portion of the church into as important a factor in church and charitable work as have been the women of the churches.

**ANTI-SALOON CONVENTION**

**Negroes Begin a Prohibition Movement in the South.**

Atlanta, Ga., Feb. 26.—Following the lead of the whites the Southern negroes began today a prohibition movement of their own at the first meeting of the anti-saloon convention of the negroes of the South.

During the sessions of the convention there will be addresses by leaders of the South of both races. In announcing the purpose of the convention the committee in charge said:

"We are determined to prove to our worthy white friends that we are as profoundly concerned in the great moral movement as any others. It is an opportunity for our people to give the world notice that we are on the right side of every question for the promotion of the public good."

**ENTIRE TIME OF THE SENATE**

**Occupied With Consideration of Agricultural Appropriation Bill.**

Washington, Feb. 26.—The entire time of the senate was occupied with the consideration of the agricultural appropriation bill. Many items of the bill providing for various investigations and matters relating to new legislation were stricken from the bill on points of order. The forestry service was again severely criticised by Senators Carter and Heyburn.

## GIVEN A BOOST BY COMMITTEE

Farm Correspondence Bill Ordered to Pass.

### PRIZES OFFERED TO FARMERS

Twenty-five Thousand Dollars to Be Given to the Farmers of the State for the Best Showing in the Various Lines of Farm Work—Woman Suffrage in This State Not Yet a Dead Issue.

St. Paul, Feb. 26.—The correspondence course in farming by the state farm school was given a big boost by the committee of the senate when the bill was amended and ordered to pass. The amendment provides \$75,000 for the establishment of the correspondence course, of which \$25,000 is to be offered as prizes to the farmers of the state for the best showing in the various lines of farm work.

The prize feature was suggested by Senator A. D. Stephens of Crookston. At present there is a prize system which is maintained by personal contributions. This will be supplemented by certain state prizes at the state fair and through the counties. The original bill was redrafted by the faculty of the farm school so that the instruction will be given as directly as possible to the individual farmer.

At present there is only one student for every 250 farms of the state in the state farm school, and only one for every forty-seven farms has attended the school since its foundation.

That six of the thirteen members of the judiciary committee who voted to kill the initiative and referendum bill gave written pledges before election to vote and work for such a measure was the charge that J. N. Johnson of Canby made before the house in the discussion which preceded the killing

of his bill. The statement caused something of a sensation, but it did not save the bill.

The judiciary committee reported the bill for indefinite postponement and four members presented a minority report asking that the bill be placed on general orders.

#### Debate Became Warm.

The debate on the motion to adopt the minority report occupied over an hour, and the many visitors who had come expecting to hear Admiral Evans address the house and were disappointed that he could not come, had the pleasure of listening to one of the warmest debates of the session on the bill.

On the roll call there were 45 for the motion and the bill and 68 against it.

Representative Adams of Fergus Falls tried, but failed to have the bill which changes the hour for the closing of saloons in cities of 50,000 or over from 11 to 12 o'clock taken from the tri-county delegation and sent to the committee on temperance.

Woman suffrage in Minnesota is not yet dead. When the committee report on Senator Ole Segeng's bill for indefinite postponement came up there was a small-sized storm at the railroad methods used by the elections committee in killing the measure, and the bill was referred again to the committee by a decisive vote.

Graduates of the St. Paul college of law and the state university law school will have to take examination for admission to the bar just as do the graduates of Columbia and Harvard if a bill presented by Senator Julius A. Collier of Shakopee becomes a law. He would amend the present law excepting graduates from the two Minnesota institutions so that all applicants will be under the rules of the supreme court, which require an examination.

#### Tuberculin Test Favored.

At a hearing before the house committee considering the Swanson bill abolishing the tuberculin test for cattle, Dr. Reynolds of the state agricultural college and a member of the state live stock sanitary board, insisted that Dr. Koch and Dr. Bank, the noted German and Danish authorities, respectively, had been misquoted by Senator Swanson, the author of the bill, and read quotations from those authorities to substantiate his position. He also read a letter from Professor Ravenel of the University of Wisconsin, who he said is a leading authority on the subject of the transmission of tuberculosis from the bovine to the human, in which the latter cited several cases in which this had been definitely shown.

Professor Andrew Boss of the agricultural college also spoke against the bill.

Why St. Paul opposes a packing plant in her front yard was shown to the committee of public health and pure food in the house by several of her citizens. The whole afternoon the committee listened to arguments for and against the plant.

Mayor Lawler said that this controversy was not prompted by petty jealousy and that if the Armour people had made any investments at the new site the people of St. Paul would be willing to take it off their hands and give them a bonus if they would locate farther away.

Wallace G. Nye, representing the public affairs of the Minneapolis Commercial club, said that the passage of the bill would defeat the hopes of getting an industry that would mean a great benefit to Minneapolis and some benefit to St. Paul.

### BOND GOVERNMENT RESIGNS

Interesting Developments Expected in New Foundland.

St. Johns, N. F., Feb. 26.—The government of Sir Robert Bond has tendered its resignation to the governor, Sir William Macgregor, and it is probable that Sir Edward Morris, the opposition leader and formerly a member of the Bond cabinet, will be called upon to form a ministry. As Morris has no more supporters in the legislature than has Bond, there is intense interest in the probable developments of the next few weeks. Sir Robert Bond endeavored to induce Governor Macgregor to dissolve the legislature and order a general election, but the governor felt that a campaign at this time would injure trade. The governor hopes to induce the legislature when it meets on March 4 to vote sufficient money to carry on business regardless of political considerations and thus enable the colony to get along without a general election until later in the year.

#### Tommy Mowatt Knocked Out.

Kansas City, Mo., Feb. 26.—Tommy Mowatt of Chicago was knocked out in the third round by Phil Knight of Leavenworth, Kan., in what was to have been a ten-round go here. The men fought at catch weights, being about 133 pounds. From the start it was Knight's fight.

## WHAT COURT'S RULING MEANS

Fine of Standard Oil Company Will Be Reduced.

### TO EXPEDITE THE HEARING

Judge Anderson Rules That If Alleged Offenses Were Committed They Numbered But Thirty-six, Instead of Five Hundred, as Claimed by Attorneys for the Government—Maximum Fine Would Be Only \$720,000.

Chicago, Feb. 26.—From Judge Landis' fine of \$29,240,000 to a possible maximum fine of \$720,000 is a far cry, but that is admitted to be the meaning of a ruling made by Judge Anderson in the retrial of the Standard Oil company of Indiana for alleged rebating. The ruling was informal and made for the purpose of expediting the hearing, and although the government has the privilege of presenting further arguments it is practically certain that there will be no change in the ruling when it is formally entered.

The decision of the court of appeals which reversed Judge Landis eliminated the view of that jurist that each car lot of oil on which a rebate was accepted constituted a separate offense. There were 1,462 of these car

JUDGE A. B. ANDERSON.

lots, the freight charges for which were paid in thirty-six different settlements. Judge Anderson interpreted the decision of the appellate court, which he said served as his guide, to imply that these alleged rebates accepted after each of the thirty-six settlements constitute the unit of the offense. The appellate court did not state so explicitly, nor did it clear up the point whether the alleged offense was a continuous one, the whole forming a single violation of the Elkins law. The defense's argument that the offense, if any, was continuous.

#### Not Regarded as Frivolous.

Judge Anderson regarded as anything but frivolous under the decision of the upper court. However, he regarded the settlement basis as the logical one, and the government will proceed in the case on that assumption.

Judge Anderson's ruling was a severe blow to United States District Attorney Sims and his associates in the prosecution. He and his assistant, James H. Wilkerson, had argued that each shipment, of which there were 500, making possible a maximum fine of \$100,000,000, constituted an offense. This view Judge Anderson declared he could not understand. He said that it had not been made plain what comprised a shipment—a train load, a car lot or a gallon. He saw no reason why, if a train load, or a car lot, were regarded as a separate offense, the matter might not be further divided, making a hundred weight the unit, or a gallon, greatly increasing the number of offenses and magnifying the punishment. The division of alleged offenses, he said, seemed to fall naturally into thirty-six parts, or counts, each marked off by a money settlement. It was these settlements that rebates, if any, were made and received.

#### New Eye Disease.

A new disease, called "electric ophthalmia," is said to threaten all users of the electric light. According to two Dresden scientists, the damage is done to the eye tissues by the ultra violet rays of the electric light, and cataract may ultimately result. The same investigators have discovered a simple preventive for electric ophthalmia in the shape of yellow or green spectacles, which, they prophesy, will become universal as electricity comes more and more into use as an illuminant.

## OFFICEHOLDERS RECEIVED MONEY

To Further Interests of Senator Stephenson.

Madison, Wis., Feb. 26.—That state officeholders, present and past, state employees, federal officeholders, several prominent attorneys and others were paid money to further the interests of United States Senator Isaac Stephenson as candidate in the recent primary election was shown in a statement of election expenses filed by Rodney Sackett with the legislative committee investigating the senatorial primary. The making public of the list created quite a sensation. Among those who figured prominently in the list and the amounts received are: Levi H. Bancroft, speaker of the assembly branch of the legislature, \$250; J. W. Stone, state game warden, \$2,500; L. B. Brosser, member of the state board of control, \$2,100; W. G. Wheeler, United States district attorney, \$600; John T. Kelly, city attorney of Milwaukee, \$500; Rock Flint, United States marshal, \$50; George Gordon, an attorney, La Crosse, \$1,600; Solon Perrin, attorney, of Superior, \$3,000; D. E. Riordan, ex-state senator, \$1,300; C. C. Wellensgard, assemblyman, \$250.80; Hugh Lewis, doorkeeper United States senate, \$360; T. Purtell, state fire marshal, \$175. Others received smaller sums. Items described as "touches" show that "old soldiers" and "heelers" received \$2.

Speaker Bancroft, the man who named the assembly members of the investigating committee, has been notified to be in readiness to testify upon call of the committee.

Quite a wrangle ensued early in the hearing over Assemblyman Ingalls' motion to subpoena all campaign managers. The motion prevailed by the usual vote of 5 to 3, the senate members voting against the motion. During the discussion of the motion, Chairman Marsh declared his belief that no selection of a United States senator would be made by the legislature until after the investigation had been completed.

Some surprise was occasioned over the announcement of the refusal of Senator Blaine to accept service of a subpoena summoning him to appear today with records he claimed to have early in the week.

### SHRUBB DEFEATS DORANDO

Englishman Easily Wins Race With Italian.

Buffalo, N. Y., Feb. 26.—Leading his opponent from the crack of the pistol to the finish, Alfred Shrubbs, the English distance runner, defeated Dorando Pietri, the Italian, in a fifteen-mile race at the Seventy-fourth regiment armory. Every American indoor record from the first to the fifteenth mile was smashed. In the first mile Shrubbs took a commanding lead, which he gradually increased to three laps in the tenth mile. Dorando made several game efforts to regain the lost ground in the twelfth and thirteenth miles, but Shrubbs never allowed him to get more than fifteen yards away from him.

Shrubbs' time for the fifteen miles was 1:24:06.

Shrubbs' lead at the finish was two and three-quarter laps.

Dorando completed the fifteen miles, finishing in a sprint that brought applause.

## OBTAINED THE REDUCED RATE

But Educators Had to Hustle to Get It.

Chicago, Feb. 26.—A special car, a call for volunteer passengers and the triumphant saving of \$10,000, brought the annual meeting of the department of superintendence of the National Educational association to a dramatic close.

Under the rules of the Western Passenger association the organization was compelled to agree to an attendance of 1,000 visitors to their meeting here in order to secure a reduced rate on the railroads. Dr. Winship of Boston, chairman of the department's transportation committee, discovered that there were but 930 visitors. Unless seventy more were forthcoming there would be no reduction in the rate for the return trip to various cities. The chairman did some hurried telephoning and found that the railroads were not inclined to take technical advantage of the educators and a special car was coupled to a regular passenger train bound for Michigan City, Ind. Then Dr. Winship mounted a chair in the Auditorium hotel, which was crowded with delegates, and called for volunteers to go to Michigan City in order that they might return promptly to Chicago in the capacity of visitors to the meeting.

"It will save \$10,000; it will save \$10,000," the doctor shouted repeatedly to collect a crowd, and then he explained that all expenses would be paid by the association.

"I'll go," responded several delegates, rallying bravely, and Dr. Winship continued after the manner of an auctioneer:

"Twenty-one I have; twenty-one I have; do I hear the twenty-two? Ah very good. Twenty-three, twenty-six, do I hear the twenty-seventh?"

Meanwhile other delegates took up the work. They approached commercial travelers lounging in the lobby and looking as if they had nothing to do—anybody who would go to Michigan City and back.

It was dangerously close to train time when the last volunteer was secured. Finally they returned, bringing with them the necessary reduced fare certificates, and the day was saved. Also, it is estimated, \$10,000.

## KLEIN ON WITNESS STAND

Accused Councilman Testifies in His Own Behalf.

Pittsburg, Feb. 26.—The large number of witnesses called by the defense in the attempt to prove an alibi for Councilmen Klein and Brand necessitated the holding of a night session of court in the trial of Councilmen Klein, Wasson and Brand, and former Banker W. W. Ramsey on a charge of conspiracy as a result of the councilmanic graft investigation. The prosecution closed its side of the case before the close of the morning session.

Klein, the first witness for the defense, testified that he and Brand had attended a meeting of the committee on the revision of salaries at city hall on the night when the detectives in the case assert they gave him \$500. He denied ever having received a dollar from Robert Wilson, the detective from Scranton, Pa., who was the chief investigator in the case.

Pierce Williams, assistant secretary of the chamber of commerce, testified that the accused men had never asked for money and that it was tendered to them. E. S. Dolph, the millionaire lumberman of Scranton, Pa., said he had given Wilson permission to use his (Dolph's) name while attempting to trap the councilmen.

A Great Ribbon Bargain

Hair and Sash Ribbons

Saturday morning we place 44 pieces of Messaline, Taffeta and Fancy ribbons on sale at 25c the yard. You are aware of the immense popularity of ribbon for this year—it will be worn extensively for sashes particularly. This will permit you to supply your needs at a very small price. The lots are as follows:

BLACK TAFFETA RIBBON—Very stiff and will tie up beautifully in bows. It is 5½ inches wide and would be considered a bargain at 35c. 10 pieces on sale Saturday at 25c the yard,

MESSALINE RIBBONS—Those beautiful soft ribbons so much used for sashes and other purposes where a soft ribbon is needed—all the good shades—5 and 5½ inches wide—these at 25c the yard.

FANCY RIBBONS—Warp prints—dainty designs, elegant qualities—there are nothing but 35c and 40c kinds in this lot. These will sell at 25c too.

H. H. Michael Co

## PROTESTANT LAYMEN HOLD A CONVENTION

Church Workers Meet in Conference in Pittsburg.

Pittsburg, Feb. 26.—What is declared to be the most important conference of the Protestant laity ever held in the United States was begun in this city today by representatives of a large number of men's organizations in the various churches.

The following church organizations are represented in the conference: Episcopal Brotherhood of St. Andrew, Interdenominational Brotherhood of Andrew and Philip, Baptist Brotherhood, United Presbyterian Men's league, Congregational Brotherhood, Methodist Brotherhood, Men's Movement of the United Brotherhood Church, Southern Presbyterian Brotherhood, League of Universalist Laymen, Canadian Presbyterian Brotherhood, Men's Movement in Christian Church and the Presbyterian Brotherhood of America.

One of the most important features of the conference will be the discussion of a proposition to arrange for co-operation of the various organizations in the larger cities as well as nationally with a view to unity and co-operation both in church work and municipal improvement. Another end suggested for the proposed federation is the raising of the male portion of the church into as important a factor in church and charitable work as have been the women of the churches.

## ANTI-SALOON CONVENTION

Negroes Begin a Prohibition Movement in the South.

Atlanta, Ga., Feb. 26.—Following the lead of the whites the Southern negroes began today a prohibition movement of their own at the first meeting of the anti-saloon convention of the negroes of the South.

During the sessions of the convention there will be addresses by leaders of the South of both races. In announcing the purpose of the convention the committee in charge said: "We are determined to prove to our worthy white friends that we are as profoundly concerned in the great moral movement as any others. It is an opportunity for our people to give the world notice that we are on the right side of every question for the promotion of the public good."

## ENTIRE TIME OF THE SENATE

Occupied With Consideration of Agricultural Appropriation Bill.

Washington, Feb. 26.—The entire time of the senate was occupied with the consideration of the agricultural appropriation bill. Many items of the bill providing for various investigations and matters relating to new legislation were stricken from the bill on points of order. The forestry service was again severely criticised by Senators Carter and Heyburn.

on a trip to Minneapolis and Red Wing  
on business.  
Mrs. W. S. Orne was called to Eagle  
Bend last night by the serious illness  
of her mother.

Orne sells sewing machines, washing  
machines, rugs (all sizes), clocks and  
wringers for cash or on easy payments  
at the Singer store. 199tf

C. E. Peabody went to Minneapolis  
this morning to be absent a couple of  
days on business.

O. G. Graham went to the twin cities  
this morning to be absent a couple of  
days on business.

Mrs. Harry Treglawney is home from  
a visit of several weeks with relatives  
at Montevideo, Minn.

John Engman, of Deerwood, was in  
the city between trains this afternoon  
transacting business.

Homestead 1601, B. A. Y., will cele-  
brate the 12th anniversary of the or-  
der, Thurs ay evening, Feb. 25, in I.  
O. O. F. hall. Entertainment and  
dance. Rasmussen's orchestra will  
furnish music. 223tf

Aurora Lodge, No. 100, A. F. & A.  
M., will confer the entered apprentice  
degree Saturday night.

Howard Curry left for St. Paul this  
afternoon after spending several days  
in the city on business.

The Modern Samaritans held a very  
pleasant and well attended smoke so-  
cial at their hall last night.

Geo. B. Wright, of Litchfield, Minn.,  
was in the city last night, being regis-  
tered at the Ransford hotel.

Eugene Smith, the Seal of Minnesota  
man, is in the city today visiting his  
brother and calling on the cigar trade.

R. R. Wise is on the streets today  
after being confined to his rooms in the  
Wise block for two weeks with illness.

Mr. and Mrs. Fred Hayes and John  
Hayes, of Backus, were in the city last  
night, being registered at the City ho-  
tel.

James Jerrard, the hustler for the  
Security Printing company, of St.  
Cloud, was in the city today on busi-  
ness.

Sam Tribby, of Little Falls, came up  
from that place on the belated train  
yesterday and transacted business in  
this city.

Homestead 1601, B. A. Y., will cele-  
brate the 12th anniversary of the or-  
der, Thursday evening, Feb. 25, in I.  
O. O. F. hall. Entertainment and  
dance. Rasmussen's orchestra will  
furnish music. 223tf

C. T. Gleason, the blind piano tuner,  
arrived in the city last night on his  
regular trip, accompanied by Mrs.  
Gleason.

Mitchell Burton, of International  
Falls, was in the city today on his way  
home from a trip to the twin cities on  
business.

John Hoerner, foreman for the  
Brainerd Brewing Co., went to Minne-  
apolis today to attend a convention of  
brew masters.

Thomas Halladay went to Clear Lake  
this morning, to look after a gasoline  
engine for the Northern Pacific rail-  
road company.

Mrs. R. L. Weeks went to Sauk  
Center today to take her mother, Mrs.  
J. R. Boynton, to that place to visit at  
the home of another daughter.

Pythian Sisters will give a poverty  
party in K. P. hall Friday evening,  
Feb. 26. Yourself and ladies are  
axed tue kum tue a poverty party  
we foks are g oing tue hav. Kum  
drest in your wurst rig, ware a Kali-  
ker dres 2 aprin 2 leave your pudel  
dorg 2 tede baar tue home. 223tf

Mr. and Mrs. Sam Shanks and Steven  
Milan left this morning for Minneap-  
olis. From there they go to Ellsworth,  
Wis., to visit for a week or ten days.

A. E. Whitney went to Little Falls  
on the early train this morning. He  
goes to visit for a few days at the home  
of Loren Cooley, formerly of this city.

Basket ball, Aitkin vs. Brainerd at  
Casino Roller Rink tonight. Admission  
10 cents. Admission and skates 35  
cents. Skating before and after the  
game.

Angus Chisholm and family, who  
have been visiting at the home of Mr.  
and Mrs. F. C. Kerr, left today for  
Lennox to visit relatives for a few  
days.

Supt. W. H. Strachan returned to-  
day from a trip to International Falls  
and other points on the line, having  
gone up Tuesday in the company's  
business car.

The Duluth News-Tribune has coined  
a new word in referring to Mrs. Steb-  
bins who was here fitting corsets last  
week. It refers to her as an expert  
"corsetiere."

John Hughes returned Wednesday  
from a visit to Minneapolis, bringing  
with him Miss Irene Hughes, his niece,  
who will visit Mr. and Mrs. Hughes  
for some time.

Three extra fine strictly pure-bred  
Rose Comb Rhode Island Red Cockerels  
for sale at \$5.00 each. These are bet-  
ter birds than you can get from regu-  
lar poultry dealers at \$10.00 each.

G. W. MOSIER,  
618 N. Broadway.  
224tf w

John Thompson returned last night  
from St. Paul, having received his ap-  
pointment as collector of customs at  
Ranier. He will leave for his new loca-  
tion Monday afternoon.

Miss Rosamond Leland, of Minne-  
apolis, arrived in the city this after-  
noon from Grand Forks, where she has  
been visiting. She will visit for a few  
days with Miss Louise Beare.

Mrs. H. J. Hotchkiss and Mrs. Scha-  
fer went to Pine River today to make  
arrangements for removing their broth-  
er, who is ill at that place, to a hospi-  
tal either at Walker or this city.

Pythian Sisters will give a poverty  
party in K. P. hall Friday evening,  
Feb. 26. Yourself and ladies are  
axed tue kum tue a poverty party  
we pore foks are going tue hav. Kum  
drest in your wurst rig, ware a Kali-  
ker dres 2 aprin 2 leve your pudel  
dorg 2 tede baar at hum. 223tf

The delay of almost two hours of the  
train from the east yesterday after-  
noon was caused by a freight train  
getting a car off center near Wright  
and blocking the track for several  
hours.

The train from the south was delayed  
almost two hours and a half yesterday  
afternoon because of the fact that a  
car was derailed at Morris the night  
previous and delayed the departure of  
the train from that point.

Dr. Sewell brought Mr. Fisher, the  
father of Mrs. J. Rathvon, down from  
Deerwood today for an operation for  
hernia. Mr. Fisher is 84 years of age  
and owing to this fact his recovery is  
considered somewhat doubtful.

J. F. McNaughton, one of the con-  
ductors on the way freight between  
Brainerd and Duluth, is on his regular

run again after a week or two lay off,  
during which he visited in Watertown,  
N. Y., and other eastern points.

Homestead No. 1601 held a social ses-  
sion last night after the regular meet-  
ing, it being the twelfth anniversary  
of the organization of the order. A  
good sized crowd was in attendance  
and a very pleasant evening was spent.

Gussie Small returned yesterday  
from his week's duty as mail clerk be-  
tween Fargo and Grand Forks, and re-  
ports that the weather was much  
warmer at Fargo than here and that  
there had been no snow in that section  
for a week or more.

Farmers in the vicinity of Brainerd are  
beginning to realize the value of stable  
manure and load after load is going to  
the country nearly every day now.  
The time is past in Brainerd when  
it is necessary to have manure  
hauled away. Just say the word and  
some farmer will do the rest.

Basket ball, Aitkin vs. Brainerd at  
Casino Roller Rink tonight. Admission  
10 cents. Admission and skates 35  
cents. Skating before and after the  
game.

Mrs. Geo. E. Darling, who assaulted  
H. A. Stickney in H. H. Hitch's office  
a couple of weeks ago because she had  
been told that he had talked slightly of  
her, was in the municipal court this  
morning. She at first demanded a jury  
trial, then changed her plea to guilty.  
Judge Albright imposed a fine of \$25  
which was paid.

Homestead 1601, B. A. Y., will cele-  
brate the 12th anniversary of the or-  
der, Thursday evening, Feb. 25, in I.  
O. O. F. hall. Entertainment and  
dance. Rasmussen's orchestra will  
furnish music. 223tf

J. L. Neary, of Northome, has leased  
the Globe hotel of Wm. Wise, and will  
take possession March 1st. Mr. Wise  
will retain the saloon and bowling al-  
ley. Mr. Neary conducted the saloon  
in the Earl hotel building when when  
Miss McGrath conducted the hotel  
which was then known as the Stratton  
house, and is well known in this city.

W. C. Brown, land commissioner of  
the Winona & St. Peter Land Co., was  
in Brainerd today on his way home  
from Aitkin and Carleton counties,  
where his company has 80,000 acres of  
lands. Mr. Brown states he is not pay-  
ing any attention to the iron question  
but is bending his efforts to the sale of  
his lands to actual settlers who will de-  
velop the agricultural resources of the  
county.

P. J. McKeon came down from the  
north today. Pat says that he is the  
hoodoo which caused the engine No. 18  
to break an eccentric between Pine  
River and Jenkins and delayed the train  
more than an hour. He has been on a  
tour of the iron range and reports Chis-  
holm about the hottest proposition he  
has hit for some time. He says there  
are 40 saloons in the town and applica-  
tions in for seven more.

The hoodoo seems to have struck the  
Minnesota & Internal railroad for fair.  
Wednesday one of the engines on the  
south bound passenger, which was com-  
ing in an hour and a half late lost a  
driving wheel in the east Brainerd  
yards, and jumped the track, delaying  
the train somewhat and causing sever-  
al hours work to get the engine onto  
the tracks. Today the engine suffered  
a break down near Jenkins which de-  
layed the train for about an hour.

Miss Emma Edwards returned today  
from Duluth where she has been visit-  
ing her sister, Mrs. Guy Warren. Mrs.  
Warren returned with her for a visit at  
the home of her father, Harry Edwards.  
Mrs. Warren recently returned from a  
visit with her sisters, Mrs. A. W. Wheat-  
ley and Mrs. Herbert Spears. Mr.  
Wheatley has been appointed general  
manager of the Montreal plant of the  
American Locomotive Co., and Mr.  
Spears is foreman of the machine shop  
in the same plant.

W. T. Orcutt, who has represented  
E. P. Stacy & Son, the well known  
Minneapolis fruit and commission house,  
for many years on this territory, has  
resigned his position with them and as-  
sociated with the Grinnells-Collins Co.,  
of Minneapolis, a well established house  
in the same line of trade. Will says  
that he was well satisfied with his old  
firm but had an opportunity to get an  
interest with the Grinnells-Collins peo-  
ple so transferred his allegiance. His  
many friends here will wish him much  
success.

There is at least one man in Brainerd  
who is praying for a continuation of  
the cold weather. That man is Pat  
Long, foreman for the Mississippi and  
Rum River Boom Co. Mr. Long is en-  
gaged in redriving the piling along the  
Mississippi river above Brainerd and  
there is work enough to keep him and  
his crew busy well into March if it is  
possible to work that long, but as the  
work has to be done on the ice it prob-  
ably will not be able to continue it  
more than a couple of weeks unless  
the weather is decidedly colder than at  
present. Mr. Long states that the ice  
washes away on the under side very  
rapidly unless the weather is far below  
zero and the use of the teams on the  
ice is very hazardous except in severe  
weather. He is now working six or  
seven miles above the dam, driving up  
from this city every morning and re-  
turning at night.

# THE CLIMAX IN FLOUR ROMAN FLOUR

MADE BY  
BRAINERD MILLING CO.

## If You have a Piano or Any kind of Furniture

That you wish to keep in good condition, write us for a  
bottle of our famous piano polish. From the experience  
of a lifetime in the piano business, we have finally  
evolved a polish that stands unrivaled in a class by itself.

It restores old surfaces and preserves the new. It  
cleans and disinfects, brings out the natural beauty of  
the wood and at the same time imparts a deep rich lustre,  
with the least effort.

This polish does not smear, streak or collect dust. The  
daily use of a little polish on the dust cloth is strongly  
recommended. This polish is used by us on our musical  
instruments and has been used by us for years. We con-  
sider it unexcelled.

Only 35c a Bottle, Postpaid

### STONE PIANO CO.

617 1st Ave. N. Fargo, N. D.

He Paid.  
A well known actor was leaving a  
small Illinois town, near which he had  
spent the summer, for Chicago to at-  
tend rehearsals. The actor was driven  
up to the rural railroad station and de-  
posited on the platform, together with  
his two trunks. As the train was about  
to start he approached a stranger near  
by and said:  
"Are you going to Chicago on this  
train?"  
"I am."  
"Have you any baggage?"  
"No."  
"Well, friend, you can do me a favor  
and it won't cost you a cent. I've got  
two good sized trunks here, and they  
always make me pay excess for one.  
You can get one checked on your ticket  
and save me some money."  
"Yes, but I haven't any ticket."  
"But you just said you were going  
on this train."  
"So I am. I'm the conductor."

A Deliberate Native.  
In a certain section of the country,  
where the natives take life easy, a  
young man and his sister were one day  
sitting on the porch when a funeral  
passed. The boy, who was whittling  
in a chair tilted comfortably back  
against the side of the house on its  
hind legs, remarked:  
"I reckon ol' man Johnson's got  
about the biggest funeral that's ever  
been held around hyeah."  
"A purty good sized one, is it?"  
questioned the sister.  
"You betcher!" the boy answered.  
"I would like to see it," replied the  
girl. "What a pity I ain't facin' that  
way!"

"Good morning, sir," said the artist  
politely. "That's a perfect cow of yours  
down there in the field. I'd like to  
paint her if you don't mind."  
"By heck," exclaimed Farmer Korn-  
top, "I reckon ye won't! Git out  
hyeah. I'm tired o' you 'Perkins' pur-  
ple pills fellers."—Philadelphia Press.

"I guess that my father must have  
been a pretty bad boy," said one young-  
ster.  
"Why?" inquired the other.  
"Because he knows just exactly what  
questions to ask me when he wants to  
know what I have been doing."—Wash-  
ington Star

cious. We have the agency. Order a  
case. Telephone 164 John Coates Liquor  
Co.

E. P. Lound, of Kimberly, was in the  
city last night on his way to Little  
Falls.

Mrs. Walter Courtney went to St.  
Paul this morning for a day or two's  
visit.

J. J. Waffensmith, of Bay Lake,  
was registered at the Antlers hotel last  
night.

Miss Carrie Tyler returned yesterday  
a't'noon from a visit with friends in  
St. Paul.

**FOR SALE**—Dry tamarack wood. J.  
M. Hayes, 1219 8th street South. Phone  
146-J4. 225tf

Neil Currie, of Currie, Minn., was in  
Brainerd yesterday and last night on  
business.

Thomas H. Beare left this morning  
on a trip to Minneapolis and Red Wing  
on business.

Mrs. W. S. Orne was called to Eagle  
Bend last night by the serious illness  
of her mother.

Orne sells sewing machines, washing  
machines, rugs (all sizes), clocks and  
wringers for cash or on easy payments  
at the Singer store. 199tf

C. E. Peabody went to Minneapolis  
this morning to be absent a couple of  
days on business.

O. G. Graham went to the twin cities  
this morning to be absent a couple of  
days on business.

Mrs. Harry Treglawney is home from  
a visit of several weeks with relatives  
at Montevideo, Minn.

John Engman, of Deerwood, was in  
the city between trains this afternoon  
transacting business.

**Homestead 1601, B. A. Y., will cele-  
brate the 12th anniversary of the or-  
der, Thurs. ay evening, Feb. 25, in I.  
O. O. F. hall. Entertainment and  
dance. Rasmussen's orchestra will  
furnish music. 223tf**

Aurora Lodge, No. 100, A. F. & A.  
M., will confer the entered apprentice  
degree Saturday night.

Howard Curry left for St. Paul this  
afternoon after spending several days  
in the city on business.

The Modern Samaritans held a very  
pleasant and well attended smoke so-  
cial at their hall last night.

Geo. B. Wright, of Litchfield, Minn.,  
was in the city last night, being regis-  
tered at the Ransford hotel.

Eugene Smith, the Seal of Minnesota  
man, is in the city today visiting his  
brother and calling on the cigar trade.

R. R. Wise is on the streets today  
after being confined to his rooms in the  
Wise block for two weeks with illness.

Mr. and Mrs. Fred Hayes and John  
Hayes, of Backus, were in the city last  
night, being registered at the City ho-  
tel.

James Jerrard, the hustler for the  
Security Printing company, of St.  
Cloud, was in the city today on busi-  
ness.

Sam Tribby, of Little Falls, came up  
from that place on the belated train  
yesterday and transacted business in  
this city.

**Homestead 1601, B. A. Y., will cele-  
brate the 12th anniversary of the or-  
der, Thursday evening, Feb. 25, in I.  
O. O. F. hall. Entertainment and  
dance. Rasmussen's orchestra will  
furnish music. 223tf**

C. T. Gleason, the blind piano tuner,  
arrived in the city last night on his  
regular trip, accompanied by Mrs.  
Gleason.

Mitchell Burton, of International  
Falls, was in the city today on his way  
home from a trip to the twin cities on  
business.

John Hoerner, foreman for the  
Brainerd Brewing Co., went to Minne-  
apolis today to attend a convention of  
brew masters.

Thomas Halladay went to Clear Lake  
this morning, to look after a gasoline  
engine for the Northern Pacific rail-  
road company.

Mrs. R. L. Weeks went to Sauk  
Center today to take her mother, Mrs.  
J. R. Boynton, to that place to visit at  
the home of another daughter.

**Pythian Sisters will give a poverty  
party in K. P. hall Friday evening,  
Feb. 26. Yourself and ladies are  
axed to kum tue a poverty party  
we foks are g'ing tue hav. Kum  
drest in your wurst rig, ware a Kall-  
ker dres 2 aprin 2 leave your pudel  
dorg 2 tede haar tue home. 223tf**

Mr. and Mrs. Sam Shanks and Steven  
Milan left this morning for Minneap-  
olis. From there they go to Ellsworth,  
Wis., to visit for a week or ten days.

A. E. Whitney went to Little Falls  
on the early train this morning. He  
goes to visit for a few days at the home  
of Loren Cooley, formerly of this city.

Basket ball, Aitkin vs. Brainerd at  
Casino Roller Rink tonight. Admission  
10 cents. Admission and skates 35  
cents. Skating before and after the  
game.

Angus Chisholm and family, who  
have been visiting at the home of Mr.  
and Mrs. F. C. Kerr, left today for  
Lennox to visit relatives for a few  
days.

Supt. W. H. Strachan returned to-  
day from a trip to International Falls  
and other points on the line, having  
gone up Tuesday in the company's  
business car.

The Duluth News-Tribune has coined  
a new word in referring to Mrs. Steb-  
bins who was here fitting corsets last  
week. It refers to her as an expert  
"corsetiere."

John Hughes returned Wednesday  
from a visit to Minneapolis, bringing  
with him Miss Irene Hughes, his niece,  
who will visit Mr. and Mrs. Hughes  
for some time.

Three extra fine strictly pure-bred  
Rose Comb Rhode Island Red Cockerels  
for sale at \$5.00 each. These are bet-  
ter birds than you can get from regu-  
lar poultry dealers at \$10.00 each.

G. W. MOSIER,  
618 N. Broadway.  
224tf w

John Thompson returned last night  
from St. Paul, having received his ap-  
pointment as collector of customs at  
Ranier. He will leave for his new loca-  
tion Monday afternoon.

Miss Rosamond Leland, of Minne-  
apolis, arrived in the city this after-  
noon from Grand Forks, where she has  
been visiting. She will visit for a few  
days with Miss Louise Beare.

Mrs. H. J. Hotchkiss and Mrs. Scha-  
fer went to Pine River today to make  
arrangements for removing their broth-  
er, who is ill at that place, to a hospi-  
tal either at Walker or this city.

**Pythian Sisters will give a poverty  
party in K. P. hall Friday evening,  
Feb. 26. Yourself and ladies are  
axed to kum tue a poverty party  
we pore foks are g'ing tue hav. Kum  
drest in your wurst rig, ware a Kall-  
ker dres and aprin 2 leave your pudel  
dorg 2 tede haar at hum. 223tf**

The delay of almost two hours of the  
train from the east yesterday after-  
noon was caused by a freight train  
getting a car off center near Wright  
and blocking the track for several  
hours.

The train from the south was delayed  
almost two hours and a half yesterday  
afternoon because of the fact that a  
car was derailed at Morris the night  
previous and delayed the departure of  
the train from that point.

Dr. Sewell brought Mr. Fisher, the  
father of Mrs. J. Rathvon, down from  
Deerwood today for an operation for  
hernia. Mr. Fisher is 84 years of age  
and owing to this fact his recovery is  
considered somewhat doubtful.

J. F. McNaughton, one of the con-  
ductors on the way freight between  
Brainerd and Duluth, is on his regular

run again after a week or two lay off,  
during which he visited in Watertown,  
N. Y., and other eastern points.

Homestead No. 1601 held a social ses-  
sion last night after the regular meet-  
ing, it being the twelfth anniversary  
of the organization of the order. A  
good sized crowd was in attendance  
and a very pleasant evening was spent.

Gussie Small returned yesterday  
from his week's duty as mail clerk be-  
tween Fargo and Grand Forks, and re-  
ports that the weather was much  
warmer at Fargo than here and that  
there had been no snow in that section  
for a week or more.

Farmers in the vicinity of Brainerd are  
beginning to realize the value of stable  
manure and load after load is going to  
the country nearly every day now.  
The time is past in Brainerd when it  
is necessary to have manure  
hauled away. Just say the word and  
some farmer will do the rest.

Basket ball, Aitkin vs. Brainerd at  
Casino Roller Rink tonight. Admission  
10 cents. Admission and skates 35  
cents. Skating before and after the  
game.

Mrs. Geo. E. Darling, who assaulted  
H. A. Stickney in H. W. Hitch's office  
a couple of weeks ago because she had  
been told that he had talked slightly  
of her, was in the municipal court this  
morning. She at first demanded a jury  
trial, then changed her plea to guilty.  
Judge Albright imposed a fine of \$25  
which was paid.

**Homestead 1601, B. A. Y., will cele-  
brate the 12th anniversary of the or-  
der, Thursday evening, Feb. 25, in I.  
O. O. F. hall. Entertainment and  
dance. Rasmussen's orchestra will  
furnish music. 223tf**

J. L. Neary, of Northome, has leased  
the Globe hotel of Wm. Wise, and will  
take possession March 1st. Mr. Wise  
will retain the saloon and bowling al-  
ley. Mr. Neary conducted the saloon  
in the Earl hotel building when when  
Miss McGrath conducted the hotel  
which was then known as the Stratton  
house, and is well known in this city.

W. C. Brown, land commissioner of  
the Winona & St. Peter Land Co., was  
in Brainerd today on his way home  
from Aitkin and Carleton counties,  
where his company has 80,000 acres of  
lands. Mr. Brown states he is not pay-  
ing any attention to the iron question  
but is bending his efforts to the sale of  
his lands to actual settlers who will de-  
velop the agricultural resources of the  
county.

P. J. McKeon came down from the  
north today. Pat says that he is the  
hoodoo which caused the engine No. 18  
to break an eccentric between Pine  
River and Jenkins and delayed the train  
more than an hour. He has been on a  
tour of the iron range and reports Chis-  
holm about the hottest proposition he  
has hit for some time. He says there  
are 40 saloons in the town and applica-  
tions in for seven more.

The hoodoo seems to have struck the  
Minnesota & Internal railroad for fair.  
Wednesday one of the engines on the  
south bound passenger, which was com-  
ing in an hour and a half late lost a  
driving wheel in the east Brainerd  
yards, and jumped the track, delaying  
the train somewhat and causing sever-  
al hours work to get the engine onto  
the tracks. Today the engine suffered  
a break down near Jenkins which de-  
layed the train for about an hour.

Miss Emma Edwards returned today  
from Duluth where she has been visit-  
ing her sister, Mrs. Guy Warren. Mrs.  
Warren returned with her for a visit at  
the home of her father, Harry Edwards.  
Mrs. Warren recently returned from a  
visit with her sisters, Mrs. A. W. Wheat-  
ley and Mrs. Herbert Spears. Mr.  
Wheatley has been appointed general  
manager of the Montreal plant of the  
American Locomotive Co., and Mr.  
Spears is foreman of the machine shop  
in the same plant.

W. T. Orcutt, who has represented  
E. P. Stacy & Son, the well known  
Minneapolis fruit and commission house,  
for many years on this territory, has  
resigned his position with them and as-  
sociated with the Grinnells-Collins Co.,  
of Minneapolis, a well established house  
in the same line of trade. Will says  
that he was well satisfied with his old  
firm but had an opportunity to get an  
interest with the Grinnells-Collins peo-  
ple so transferred his allegiance. His  
many friends here will wish him much  
success.

There is at least one man in Brainerd  
who is praying for a continuation of  
the cold weather. That man is Pat  
Long, foreman for the Mississippi and  
Rum River Boom Co. Mr. Long is en-  
gaged in redriving the piling along the  
Mississippi river above Brainerd and  
there is work enough to keep him and  
his crew busy well into March if it is  
possible to work that long, but as the  
work has to be done on the ice it prob-  
ably will not be able to continue it  
more than a couple of weeks unless  
the weather is decidedly colder than at  
present. Mr. Long states that the ice  
washes away on the under side very  
rapidly unless the weather is far below  
zero and the use of the teams on the  
ice is very hazardous except in severe  
weather. He is now working six or  
seven miles above the dam, driving up  
from this city every morning and re-  
turning at night.

# THE CLIMAX IN FLOUR ROMAN FLOUR

MADE BY  
BRainerd MILLING CO.

## If You have a Piano or Any kind of Furniture

That you wish to keep in good condition, write us for a  
bottle of our famous piano polish. From the experience  
of a lifetime in the piano business, we have finally  
evolved a polish that stands unrivaled in a class by itself.

It restores old surfaces and preserves the new. It  
cleans and disinfects, brings out the natural beauty of  
the wood and at the same time imparts a deep rich lustre,  
with the least effort.

This polish does not smear, streak or collect dust. The  
daily use of a little polish on the dust cloth is strongly  
recommended. This polish is used by us on our musical  
instruments and has been used by us for years. We con-  
sider it unexcelled.

Fargo, N. D.

### He Paid.

A well known actor was leaving a  
small Illinois town, near which he had  
spent the summer, for Chicago to at-  
tend rehearsals. The actor was driven  
up to the rural railroad station and de-  
posited on the platform, together with  
his two trunks. As the train was about  
to start he approached a stranger near  
by and said:

"Are you going to Chicago on this  
train?"

"I am."

"I have you any baggage?"

"No."

"Well, friend, you can do me a favor  
and it won't cost you a cent. I've got  
two good sized trunks here, and they  
always make me pay excess for one.  
You can get one checked on your ticket  
and save me some money."

"Yes, but I haven't any ticket."

"But you just said you were going  
on this train."

"So I am. I'm the conductor."

### A Deliberate Native.

In a certain section of the country,  
where the natives take life easy, a  
young man and his sister were one day  
sitting on the porch when a funeral  
passed. The boy, who was whittling  
in a chair tilted comfortably back  
against the side of the house on its  
hind legs, remarked:

"I reckon ol' man Johnson's got  
about the biggest funeral that's ever  
been held around here."

"A purty good sized one, is it?"  
questioned the sister.

"You betcher!" the boy answered.

"I would like to see it," replied the  
girl. "What a pity I ain't facin' that  
way!"

"Good morning, sir," said the artist  
politely. "That's a perfect cow of yours  
down there in the field. I'd like to  
paint her if you don't mind."

"By heck," exclaimed Farmer Korn-  
top, "I reckon ye won't! Git outer  
hyar. I'm tired o' you 'Perkins' pur-  
ple pills fellers."—Philadelphia Press.

## RAILROAD MEN ARE INTERESTED

Local Railroad Men Interested on  
Bill to Provide Additional  
Trainmen

WOULD EFFECT LOCAL TRAINS  
Legislation Would Increase Num-  
ber of Brakemen on Large  
Freights and Passengers

Local railroad men are considerably interested in the bill now pending before the Minnesota legislature defining a full train and requiring additional train when the given number of cars is exceeded. The bill makes 40 cars full freight train and when more than that number of cars is in one train there must be one or more additional brakemen, or flag men employed. A well known freight conductor remarked this morning if the bill became a law it would obviate most of the delay at crossings, as it was almost impossible for men to signal the length of a train of 75 cars, and made much delay in cutting for crossings. The bill also provides that if a passenger train consists of more than four cars there must be two flagmen, or brakemen, instead of one as at present. The provision, if carried into effect, would add one man to each passenger train running into the city the trains between Brainerd and the twin cities and the day train to and from Duluth. The train men are in favor of the bill of course, while the companies express the belief that it would be an added unnecessary expense.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. Refuse any but the genuine in the yellow package. H. P. Dunn. mwf

## M'KINLEY HERO IS DEGRADED

Officer Who Seized Assassin Is Con-  
victed Car Burglary "Fence."

Buffalo, N. Y., Feb. 26.—From the hero of the McKinley assassination into a prisoner charged with criminal receiving the booty of a car burglary is the drop taken by former Detective Albert Solomon of this city. He was convicted by a jury in the supreme court. Solomon's record as a police officer was brilliant. It was Solomon who grabbed Czolgosz after he shot President McKinley and dragged him behind the stage and held him from the mob until he was taken to police headquarters. Three years ago Solomon was broken for allowing Lou Whitman, the noted forger, to escape from him while aboard a train.

Hoarse coughs and stuffy colds that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar, and it soothes inflamed membranes, heals the lungs, and expels the cold from the system. H. P. Dunn. mwf

The Best Friend—I hear her husband shows her a doglike devotion. The Casual Gossip—Yes; they say he is always growling at her.

C. R. Kluger, the jeweler, 1060 Virginia Ave., Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." H. P. Dunn. mwf

Bride Has the Right to Kill.  
New York, Feb. 26.—Rose Gratzolne, twenty years old, who when a bride of but six months shot and killed her husband, was acquitted in Brooklyn. Sympathy has been shown for Mrs. Gratzolne because of her story that she resisted her husband's efforts to drive her to the streets to lead a life of shame.

## To Redden the Blood

Rich, red blood.  
That is what pale, weak, nervous people need.

Red blood to form new cells and tissues, to invigorate the nerves, to strengthen the heart's action, to give energy and vigor to the organs of the body.

The elements from which nature forms rich, red blood are found in condensed and easily assimilated form in Dr. A. W. Chase's Nerve Pills and because of its wonderful blood-building qualities this great restorative has become world famous.

There is no guess work, no experimenting with this treatment. Every dose is bound to do you a certain amount of good.

Mrs. H. H. HARBORTH, Mansfield, Ohio, states: "A child of mine was pale, bloodless, weak and nervous. Dr. A. W. Chase's Nerve Pills acted splendidly, making the nerves strong the blood rich, the color good, and building up the system in every way."

The portrait and signature of A. W. Chase, M. D., the famous Receipt Book author, are on every box, 50 cents at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

Dr. A. W. Chase's  
Nerve Pills  
H. P. DUNN, Druggist.

## FARM, HOME AND GARDEN

Now is the time to commence the preparations for the coming season's farm and garden work. Many seeds such as cabbage, cauliflower, tomato, celery, etc., should be planted about the first of March either in hot houses or, what is more commonly necessary, in a box in the house. If they are planted now it will be necessary to transplant them once or twice [and this is a decided advantage as it gives much stronger plants.

If you did not think to put some good garden soil away in the cellar for use in planting seeds, then scrape away the snow and take an old ax and chop out enough to fill a cigar box or a similar small box for each variety of seeds to be planted. Put the soil in an old pan and bake it thoroughly and it will kill all the weeds, grubs and insects, so that your young plants will thrive nicely. Plant the seeds and cover with a damp cloth, after moistening down the soil thoroughly and place under the stove or in some other warm place. It is not necessary that they have light until the plants commence to come up, then place in as sunny a window as possible.

**Pneumonia Follows La Grippe**  
Pneumonia often follows la grippe but never follows the use of Foley's Honey and Tar, for la grippe coughs and deep seated colds. Refuse any but the genuine in the yellow package. H. P. Dunn. mwf

## COLONY OF COMMUNISM.

How Dr. Van Eeden Would Abolish Human Ills.

Dr. Frederik Van Eeden of Holland, poet, scientist, artist and sociologist, whose views on communism attracted so much attention a year ago when he visited the United States, recently arrived in New York and this time with a well defined plan for the elimination of all human ills and the realization of universal happiness.

"I am going to form a corporation—or a trust, as you call it here in America," he said the other day, "whose scope will be worldwide and whose object will be the suppression of usury, special privilege and barter. The trust will eliminate the man who does not work, the drone who dissipates his usefulness.

"The corporation will be conducted on purely business lines. We will have a company with a president, a treasurer, a secretary, and we will have a board of trustees. I do not know who the officers and the trustees will be, but they must be men of high standing and undoubted honesty. The general manager must be a capable business man, and the basic principle will be the prevention of unemployment and malemployment."

Dr. Van Eeden hopes to organize several communistic colonies in America. He has already founded such a co-operative society in Amsterdam, which has grown to large proportions.

## CALL FOR THREE PRESIDENTS

Petition of Civic Federation of Huron, S. D.—Wanted "With Vices."

Representative William Sulzer of New York presented to the house the other day a petition from the Civic federation of Huron, S. D., urging an amendment of the federal constitution.

The petition sets out that there ought to be three presidents—one from the east, one from the west and one from the central part of the United States. The adoption of this scheme would keep the judiciary out of politics, would prevent the concentration of power and would serve to diminish the centering of popular dislike on one man.

Apparently the petitioners desire that there shall be three vice presidents also, although their language is a bit vague on this point. The petition favors "three presidents with vices."

## SPLENDID FOR THE OLD FOLKS

Gives Simple Prescription Which  
Anyone Can Mix at  
Home

RELIEVE ALL RHEUMATISM  
Acts Promptly on Kidneys and  
Bladder and Should be Given  
a Trial

Cut this out and put in some safe place, for it is valuable and worth more than anything else in the world if you should have an attack of rheumatism or bladder trouble or any derangement of the kidneys whatever.

The prescription is simple and can be made up by anyone at home. The ingredients can be had at any good prescription pharmacy and all that is necessary is to shake them well in a bottle.

Here it is: Fluid extract dandelion, one-half ounce; compound kargon, one ounce; compound syrup sarsaparilla, three ounces.

Take a teaspoonful after each meal and at bedtime. A few doses is said to relieve almost any case of bladder trouble, frequent urination; pain and scalding, weakness and backache, pain above the kidneys, etc. It is now claimed to be the method of curing chronic rheumatism, because of its direct and positive action upon the eliminative tissues of the kidneys. It gives them life and power to sift and strain the poisonous waste matter and uric acid from the blood, relieving the worst forms of rheumatism and kidney and bladder troubles. The extract dandelion acts upon the stomach and liver and is used also extensively for relieving constipation and indigestion. Compound sarsaparilla cleans and enriches the blood. There is nothing better than Kargon Compound for the kidneys.

This prescription is safe to use at any time.

## Hexamethyleneteramine

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethyleneteramine is recognized by medical text books and authorities as a uric solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. H. P. Dunn. mwf

## CARROLL WRIGHT'S JEST.

Clark College President Used Mathematics to End Friction in a Choir.

When Colonel Carroll D. Wright, president of Clark college at Worcester, Mass., and former United States labor commissioner, was a young man he was appointed by the church with which he was connected chairman of the committee on music. He was no musician, but he was a mathematician, and he used mathematics to direct music.

He promptly made three of the committee members of the quartet. That removed the possibility of friction between the committee and the choir. He soon found, however, that there was some feeling between the contralto and the soprano singer. Either was likely to exhibit sensitiveness if the other seemed to be assigned to solos the more frequently or more prominently.

When Easter Sunday came it so happened that the anthem which had been selected as suitable for the occasion contained very long soprano solos. The contralto soloist was plainly disconcerted. Noting this, the chairman of the music committee quietly whispered to her that he had made an accurate measurement of the number of inches of the soprano part and that he would see to it before the month was out that anthems were selected which not only harmonized with the religious needs of the occasion, but afforded an equal number of inches of contralto solo. "I am not much of a musician," Mr. Wright is said to have added, "but I am great on figures. You can trust me to equalize the account to the eighth of an inch."

This piece of waggishness, which naturally put an end to friction in the choir, furnished a key to Colonel Wright's success in life. This choir incident of his youth epitomizes his methods in handling all questions.

## MRS. TEAL BACK IN PRISON

Remanded to the Tombs While Jury Is Deliberating.

New York, Feb. 26.—After brief jumbling up speeches by the lawyers and a still briefer charge to the jury by Judge Foster, the case of Mrs. Ben Teal, wife of a theatrical producer, charged with attempted subornation of perjury in connection with Mrs. Frank Gould's suit for divorce, went to the jury.

Mrs. Teal wept while her lawyer, in summing up, declared repeatedly that she was a much wronged woman and that all the witnesses against her in the case was "perjured enemies of this woman."

When no agreement appeared in sight, Judge Foster ordered the jury locked up for the night. Mrs. Teal was returned to the Tombs.

Mrs. Teal formerly was the wife of W. C. Toomey of St. Paul when he was private secretary to James J. Hill, the railroad magnate.

## What Constitutes Good Job Printing?

The chances are that you have asked yourself the above question many times and maybe you have not had it answered fully to your own satisfaction.

Good Job Printing, according to the best authorities, requires taste, type and skill, combined to produce a piece of work which is both pleasing to the eye and gives due prominence to the articles or occupation to be advertised.

This class of work THE DISPATCH force bends every effort to produce and if you have anything in mind in any line of printing, phone us and you will get the full benefit of our mechanical department.

## NOVELTY IN AIRSHIPS

Unique Dirigible Being Construct-  
ed by Captain Baldwin.

## CRAFT FOR PLEASURE TOURS

Balloon Ordered by New York Yacht-  
man Will Be Equipped With Several  
Automobile Devices—Other Radical  
Departures—Machine to Hold Four  
People and Cost \$11,000.

That the time is rapidly approaching when the popular mode of pleasure touring will be aerial flights over the land instead of by motor cars on dusty highways received practical confirmation recently when an order was given by a member of the New York Yacht club to Captain Thomas P. Baldwin for a dirigible airship. It is required to carry three passengers besides the operator, and its maximum speed will be twenty miles an hour. The machine will cost about \$11,000 and will be finished in June.

This new pleasure airship, while constructed on the general lines of the government dirigible built by Captain Baldwin last year and accepted by the war department after the tests at Fort Myer, will embody many improvements, in the nature of "refinements in detail," as the automobilists say. Captain Baldwin has learned a few things, he says, from his past experience in building airships, and as this new creation is designed chiefly for pleasure he has worked out some interesting features, which will make the machine unique in its class.

The thing that will first attract the attention of the average observer will be the neat arrangement of the motor and the passenger quarters. The motor, a twenty horsepower Curtiss motor, water cooled and of four cylinders, will be covered with an aluminum hood, with the radiator in front similar to that of automobiles. The engine will also be equipped with a muffler. Both of these are entirely new departures in dirigibles.

Still another radical departure will be the arrangement of the passenger quarters, which will be directly behind the motor, resembling the cockpit of an open launch power boat. The cockpit will be inclosed by a railing around which will be upholstered seats for the three passengers, the operator occupying a seat in front at the wheel of the motor. Here, again, Captain Baldwin has devised a simple scheme for the operation of the machine that is far in advance of the method adopted in the government dirigible. One man will be able to manage the big airship, the wheel guiding the horizontal, left and right movements, while a lever conveniently arranged on the right hand side of the operator controls the vertical direction in rising to greater altitudes or descending.

The radical nature of these improvements may be better appreciated by contrasting this new machine with that of the government dirigible No. 1, where, it will be noticed, two men are required to manage the ship, the second man, who steers, being far to the rear, while the man at the motor controls the planes in front, causing the machine to rise or fall, as desired. There is no muffler on the engine of the government ship, and when in operation it is impossible for the two operators to hold any oral communication. Lieutenant Lahm has just had a speaking tube attached to the ship so that instructions may readily be un-

derstood by the two men.

The government machine is ninety-seven feet in length and of 19,000 cubic feet capacity. The new ship will be 100 feet long, the envelope having a capacity of 22,000 cubic feet, and the frame, which will be constructed of Oregon spruce, will be eighty feet long and four feet wide. It will be suspended at a much lower distance from the gas bag than has been done in other dirigibles. The cockpit for the passengers will be eight feet long. The planes will be situated four feet in front of the motor and will extend six feet on each side of the frame. A number of other improvements besides those mentioned have been worked out by Captain Baldwin, one of which will be attaching the cross-bars in steel sockets, and when completed this 100 foot airship will exemplify the latest ideas in design and convenience of operation in dirigible balloon construction.

The motor is now being built at Hammondsport, N. Y., where the frame will also be constructed, and the balloon will be made in Captain Baldwin's shop at Tuckahoe. The gasoline tanks, carrying twenty gallons, will be placed under the seats, and the machine will be capable of making a seven hour trip without coming to earth for fresh supplies of fuel.—New York Times.

## WOMEN LOADED WITH IDEAS.

But Men Come Home Simply Loaded,  
Says Bishop Anderson.

Bishop Charles P. Anderson has added a unique contribution to the arguments in favor of woman suffrage. In an address the other night at Chicago to a men's club he took up the cudgels for the other sex.

"When men have an afternoon off they go to a ball game or a circus," he said. "When a woman has an afternoon to spend she goes to a meeting of the Browning club. The women come home loaded with ideas; the men come home simply loaded."

The bishop went on to say that there was as much reason why the women should get together and refuse to allow the men to vote as for the opposite condition to exist.

## KELLY DEFEATS JOE THOMAS

Referee Stops the Fight in the Fifth Round.

New York, Feb. 26.—Hugo Kelly of Chicago defeated Joe Thomas of San Francisco in five rounds before the Fairmont Athletic club. The referee stopped the fight when Thomas was helpless. The men are middleweights and the winner is expected to meet Stanley Ketchel, the middleweight champion.

Kelly forced the fighting from start to finish and had a decided advantage at every stage. In the fourth round he knocked Thomas down three times and the bell saved Thomas from being counted out. After being put down twice in the fifth round, Referee Johns sent the men to their corners as Thomas was practically helpless.

## Life Term for Murders.

Prairie du Chien, Wis., Feb. 26.—John J. McDonald was sentenced to life imprisonment in the Waupun state prison for the murder of Mrs. Oscar Lenox and her daughter last Wednesday, near Clayton. Judge Clementson also added that the seventeenth day of each month was to be spent in solitary confinement.

## Buckien's Arnica Salve

The Best Salve In The World.

## Dr. King's New Life Pills

The best in the world.

## A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz., pure triple refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia, weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption. It is the best medicine that can be taken.

## RAILROAD MEN ARE INTERESTED

Local Railroad Men Interested on  
Bill to Provide Additional  
Trainmen

WOULD EFFECT LOCAL TRAINS  
Legislation Would Increase Num-  
ber of Brakemen on Large  
Freights and Passengers

Local railroad men are considerably interested in the bill now pending before the Minnesota legislature defining a full train and requiring additional train when the given number of cars is exceeded. The bill makes 40 cars full freight train and when more than that number of cars is in one train there must be one or more additional brakemen, or flag men employed. A well known freight conductor remarked this morning if the bill became a law it would obviate most of the delay at crossings, as it was almost impossible for men to signal the length of a train of 75 cars, and made much delay in cutting for crossings. The bill also provides that if a passenger train consists of more than four cars there must be two flagmen, or brakemen, instead of one as at present. The provision, if carried into effect, would add one man to each passenger train running into the city the trains between Brainerd and the twin cities and the day train to and from Duluth. The train men are in favor of the bill of course, while the companies express the belief that it would be an added unnecessary expense.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. Refuse any but the genuine in the yellow package. H. P. Dunn. mwf

## M'KINLEY HERO IS DEGRADED

Officer Who Seized Assassin Is Con-  
victed Car Burglary "Fence."

Buffalo, N. Y., Feb. 26.—From the hero of the McKinley assassination into a prisoner charged with criminal receiving the booty of a car burglary is the drop taken by former Detective Albert Solomon of this city. He was convicted by a jury in the supreme court. Solomon's record as a police officer was brilliant. It was Solomon who grabbed Czolgosz after he shot President McKinley and dragged him behind the stage and held him from the mob until he was taken to police headquarters. Three years ago Solomon was broken for allowing Lou Whitman, the noted forger, to escape from him while aboard a train.

Hoarse coughs and stuffy colds that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar, and it soothes inflamed membranes, heals the lungs, and expels the cold from the system. H. P. Dunn. mwf

The Best Friend—I hear her husband shows her a doglike devotion.  
The Casual Gossip—Yes; they say he is always growling at her.

C. R. Kluger, the jeweler, 1060 Virginia Ave., Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." H. P. Dunn. mwf

Bride Has the Right to Kill.  
New York, Feb. 26.—Rose Gratzoline, twenty years old, who when a bride of but six months shot and killed her husband, was acquitted in Brooklyn. Sympathy has been shown for Mrs. Gratzoline because of her story that she resisted her husband's efforts to drive her to the streets to lead a life of shame.

## To Redden the Blood

Rich, red blood.  
That is what pale, weak, nervous people need.  
Red blood to form new cells and tissues, to invigorate the nerves, to strengthen the heart's action, to give energy and vigor to the organs of the body.

The elements from which nature forms rich, red blood are found in condensed and easily assimilated form in Dr. A. W. Chase's Nerve Pills and because of its wonderful blood-building qualities this great restorative has become world famous.

There is no guess work, no experimenting with this treatment. Every dose is bound to do you a certain amount of good.

Mrs. H. HARBOROUGH, Mansfield, Ohio, states:—"A child of mine was pale, bloodless, weak and nervous. Dr. A. W. Chase's Nerve Pills acted splendidly, making the nerves strong, the blood rich, the color good, and building up the system in every way."

The portrait and signature of A. W. Chase, D. the famous Receipt Book author, are on every box. 50 cents at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

**Dr. A. W. Chase's  
Nerve Pills**  
H. P. DUNN, Druggist.

## FARM, HOME AND GARDEN

Now is the time to commence the preparations for the coming season's farm and garden work. Many seeds such as cabbage, cauliflower, tomato, celery, etc., should be planted about the first of March either in hot houses or, what is more commonly necessary, in a box in the house. If they are planted now it will be necessary to transplant them once or twice and this is a decided advantage as it gives much stronger plants.

If you did not think to put some good garden soil away in the cellar for use in planting seeds, then scrape away the snow and take an old ax and chop out enough to fill a cigar box or a similar small box for each variety of seeds to be planted. Put the soil in an old pan and bake it thoroughly and it will kill all the weeds, grubs and insects, so that your young plants will thrive nicely. Plant the seeds and cover with a damp cloth, after moistening down the soil thoroughly and place under the stove or in some other warm place. It is not necessary that they have light until the plants commence to come up, then place in as sunny a window as possible.

**Pneumonia Follows La Grippe**  
Pneumonia often follows la grippe but never follows the use of Foley's Honey and Tar, for la grippe coughs and deep seated colds. Refuse any but the genuine in the yellow package. H. P. Dunn. mwf

## What Constitutes Good Job Printing?

The chances are that you have asked yourself the above question many times and maybe you have not had it answered fully to your own satisfaction.

Good Job Printing, according to the best authorities, requires taste, type and skill, combined to produce a piece of work which is both pleasing to the eye and gives due prominence to the articles or occupation to be advertised.

This class of work THE DISPATCH force bends every effort to produce and if you have anything in mind in any line of printing, phone us and you will get the full benefit of our mechanical department.

## NOVELTY IN AIRSHIPS

Unique Dirigible Being Construct-  
ed by Captain Baldwin.

CRAFT FOR PLEASURE TOURS

Balloon Ordered by New York Yacht-  
man Will Be Equipped With Several  
Automobile Devices—Other Radical  
Departures—Machine to Hold Four  
People and Cost \$11,000.

That the time is rapidly approaching when the popular mode of pleasure touring will be aerial flights over the land instead of by motor cars on dusty highways received practical confirmation recently when an order was given by a member of the New York Yacht club to Captain Thomas P. Baldwin for a dirigible airship. It is required to carry three passengers besides the operator, and its maximum speed will be twenty miles an hour. The machine will cost about \$11,000 and will be finished in June.

This new pleasure airship, while constructed on the general lines of the government dirigible built by Captain Baldwin last year and accepted by the war department after the tests at Fort Myer, will embody many improvements, in the nature of "refinements in detail," as the automobilists say. Captain Baldwin has learned a few things, he says, from his past experience in building airships, and as this new creation is designed chiefly for pleasure he has worked out some interesting features, which will make the machine unique in its class.

The thing that will first attract the attention of the average observer will be the neat arrangement of the motor and the passenger quarters. The motor, a twenty horsepower Curtiss motor, water cooled and of four cylinders, will be covered with an aluminum hood, with the radiator in front similar to that of automobiles. The engine will also be equipped with a muffler. Both of these are entirely new departures in dirigibles.

Still another radical departure will be the arrangement of the passenger quarters, which will be directly behind the motor, resembling the cockpit of an open launch power boat. The cockpit will be inclosed by a railing around which will be upholstered seats for the three passengers, the operator occupying a seat in front at the wheel of the motor. Here, again, Captain Baldwin has devised a simple scheme for the operation of the machine that is far in advance of the method adopted in the government dirigible. One man will be able to manage the big airship, the wheel guiding the horizontal, left and right movements, while a lever conveniently arranged on the right hand side of the operator controls the vertical direction in rising to greater altitudes or descending.

The radical nature of these improvements may be better appreciated by contrasting this new machine with that of the government dirigible No. 1, where, it will be noticed, two men are required to manage the ship, the second man, who steers, being far to the rear, while the man at the motor controls the planes in front, causing the machine to rise or fall, as desired. There is no muffler on the engine of the government ship, and when in operation it is impossible for the two operators to hold any oral communication. Lieutenant Lahm has just had a speaking tube attached to the ship so that instructions may readily be un-

derstood by the two men.

The government machine is ninety-seven feet in length and of 19,000 cubic feet capacity. The new ship will be 100 feet long, the envelope having a capacity of 22,000 cubic feet, and the frame, which will be constructed of Oregon spruce, will be eighty feet long and four feet wide. It will be suspended at a much lower distance from the gas bag than has been done in other dirigibles. The cockpit for the passengers will be eight feet long. The planes will be situated four feet in front of the motor and will extend six feet on each side of the frame. A number of other improvements besides those mentioned have been worked out by Captain Baldwin, one of which will be attaching the cross-bars in steel sockets, and when completed this 100 foot airship will exemplify the latest ideas in design and convenience of operation in dirigible balloon construction.

The motor is now being built at Hammondsport, N. Y., where the frame will also be constructed, and the balloon will be made in Captain Baldwin's shop at Tuckahoe. The gasoline tanks, carrying twenty gallons, will be placed under the seats, and the machine will be capable of making a seven hour trip without coming to earth for fresh supplies of fuel.—New York Times.

## WOMEN LOADED WITH IDEAS.

But Men Come Home Simply Loaded,  
Says Bishop Anderson.

Bishop Charles P. Anderson has added a unique contribution to the arguments in favor of woman suffrage. In an address the other night at Chicago to a men's club he took up the cudgels for the other sex.

"When men have an afternoon off they go to a ball game or a circus," he said. "When a woman has an afternoon to spend she goes to a meeting of the Browning club. The women come home loaded with ideas; the men come home simply loaded."

The bishop went on to say that there was as much reason why the women should get together and refuse to allow the men to vote as for the opposite condition to exist.

## KELLY DEFEATS JOE THOMAS

Referee Stops the Fight in the Fifth Round.

New York, Feb. 26.—Hugo Kelly of Chicago defeated Joe Thomas of San Francisco in five rounds before the Fairmont Athletic club. The referee stopped the fight when Thomas was helpless. The men are middleweights and the winner is expected to meet Stanley Ketchel, the middleweight champion.

Kelly forced the fighting from start to finish and had a decided advantage at every stage. In the fourth round he knocked Thomas down three times and the bell saved Thomas from being counted out. After being put down twice in the fifth round, Referee Johns sent the men to their corners as Thomas was practically helpless.

## Life Term for Murders.

Prairie du Chien, Wis., Feb. 26.—John J. McDonald was sentenced to life imprisonment in the Waupun state prison for the murder of Mrs. Oscar Lenox and her daughter last Wednesday, near Clayton. Judge Clements also added that the seventh day of each month was to be spent in solitary confinement.

## Buckion's Arnica Salve

The Best Salve in The World.

## Dr. King's New Life Pills

The best in the world.

## A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better reason is that both Dr. King's New Life Pills and Dr. Pierce's Family Medicines are made of pure glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption. It is the best medicine that can be taken.

## RAILROAD MEN ARE INTERESTED

Local Railroad Men Interested on  
Bill to Provide Additional  
Trainmen

## WOULD EFFECT LOCAL TRAINS

Legislation Would Increase Num-  
ber of Brakemen on Large  
Freights and Passengers

Local railroad men are considerably interested in the bill now pending before the Minnesota legislature defining a full train and requiring additional train when the given number of cars is exceeded. The bill makes 40 cars full freight train and when more than that number of cars is in one train there must be one or more additional brakemen, or flag men employed. A well known freight conductor remarked this morning if the bill became a law it would obviate most of the delay at crossings, as it was almost impossible for men to signal the length of a train of 75 cars, and made much delay in cutting for crossings. The bill also provides that if a passenger train consists of more than four cars there must be two flagmen, or brakemen, instead of one as at present. The provision, if carried into effect, would add one man to each passenger train running into the city the trains between Brainerd and the twin cities and the day train to and from Duluth. The train men are in favor of the bill of course, while the companies express the belief that it would be an added unnecessary expense.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. Refuse any but the genuine in the yellow package. H. P. Dunn. mwf

## M'KINLEY HERO IS DEGRADED

Officer Who Seized Assassin Is Con-  
victed Car Burglary "Fence."

Buffalo, N. Y., Feb. 26.—From the hero of the McKinley assassination into a prisoner charged with criminal receiving the booty of a car burglary is the drop taken by former Detective Albert Solomon of this city. He was convicted by a jury in the supreme court. Solomon's record as a police officer was brilliant. It was Solomon who grabbed Czolgosz after he shot President McKinley and dragged him behind the stage and held him from the mob until he was taken to police headquarters. Three years ago Solomon was broken for allowing Lou Whitman, the noted forger, to escape from him while aboard a train.

Hoarse coughs and stuffy colds that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar, and it soothes inflamed membranes, heals the lungs, and expels the cold from the system. H. P. Dunn. mwf

The Best Friend—I hear her husband shows her a doglike devotion.  
The Casual Gossip—Yes; they say he is always growling at her.

C. R. Kluger, the jeweler, 1060 Virginia Ave., Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my headache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." H. P. Dunn. mwf

## Bride Has the Right to Kill.

New York, Feb. 26.—Rose Gratzoline, twenty years old, who when a bride of but six months shot and killed her husband, was acquitted in Brooklyn. Sympathy has been shown for Mrs. Gratzoline because of her story that she resisted her husband's efforts to drive her to the streets to lead a life of shame.

## To Redden the Blood

Rich, red blood.  
That is what pale, weak, nervous people need.

Red blood to form new cells and tissues, to invigorate the nerves, to strengthen the heart's action, to give energy and vigor to the organs of the body.

The elements from which nature forms rich, red blood are found in condensed and easily assimilated form in Dr. A. W. Chase's Nerve Pills and because of its wonderful blood-building qualities this great restorative has become world famous.

There is no guess work, no experimenting with this treatment. Every dose is bound to do you a certain amount of good.

Mrs. H. HARBROUGH, Mansfield, Ohio, states:—"A child of mine was pale, bloodless, weak and nervous. Dr. A. W. Chase's Nerve Pills acted splendidly, making the nerves strong, the blood rich, the color good, and building up the system in every way."

The portrait and signature of A. W. Chase and Dr. A. W. Chase's Nerve Pills, are on every box, 50 cents at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

## Dr. A. W. Chase's Nerve Pills

H. P. DUNN, Druggist.

## FARM, HOME AND GARDEN

Now is the time to commence the preparations for the coming season's farm and garden work. Many seeds such as cabbage, cauliflower, tomato, celery, etc., should be planted about the first of March either in hot houses or, what is more commonly necessary, in a box in the house. If they are planted now it will be necessary to transplant them once or twice and this is a decided advantage as it gives much stronger plants.

If you did not think to put some good garden soil away in the cellar for use in planting seeds, then scrape away the snow and take an old ax and chop out enough to fill a cigar box or a similar small box for each variety of seeds to be planted. Put the soil in an old pan and bake it thoroughly and it will kill all the weeds, grubs and insects, so that your young plants will thrive nicely. Plant the seeds and cover with a damp cloth, after moistening down the soil thoroughly and place under the stove or in some other warm place. It is not necessary that they have light until the plants commence to come up, then place in as sunny a window as possible.

**Pneumonia Follows La Grippe**  
Pneumonia often follows la grippe but never follows the use of Foley's Honey and Tar, for la grippe coughs and deep seated colds. Refuse any but the genuine in the yellow package. H. P. Dunn. mwf

## COLONY OF COMMUNISM.

How Dr. Van Eeden Would Abolish Human Ills.

Dr. Frederik Van Eeden of Holland, poet, scientist, artist and sociologist, whose views on communism attracted so much attention a year ago when he visited the United States, recently arrived in New York and this time with a well defined plan for the elimination of all human ills and the realization of universal happiness.

"I am going to form a corporation—or a trust, as you call it here in America," he said the other day, "whose scope will be worldwide and whose object will be the suppression of usury, special privilege and barter. The trust will eliminate the man who does not work, the drone who dissipates his usefulness."

The corporation will be conducted on purely business lines. We will have a company with a president, a treasurer, a secretary, and we will have a board of trustees. I do not know who the officers and the trustees will be, but they must be men of high standing and undoubted honesty. The general manager must be a capable business man, and the basic principle will be the prevention of unemployment and malemployment."

Dr. Van Eeden hopes to organize several communistic colonies in America. He has already founded such a co-operative society in Amsterdam, which has grown to large proportions.

## CALL FOR THREE PRESIDENTS

Petition of Civic Federation of Huron, S. D.—Wanted "With Vices."

Representative William Sulzer of New York presented to the house the other day a petition from the Civic Federation of Huron, S. D., urging an amendment of the federal constitution.

The petition sets out that there ought to be three presidents—one from the east, one from the west and one from the central part of the United States. The adoption of this scheme would keep the judiciary out of politics, would prevent the concentration of power and would serve to diminish the centering of popular dislike on one man.

Apparently the petitioners desire that there shall be three vice presidents also, although their language is a bit vague on this point. The petition favors "three presidents with vices."

## SPLENDID FOR THE OLD FOLKS

Gives Simple Prescription Which  
Anyone Can Mix at  
Home

## RELIEVE ALL RHEUMATISM

Acts Promptly on Kidneys and  
Bladder and Should be Given  
a Trial

Cut this out and put in some safe place, for it is valuable and worth more than anything else in the world if you should have an attack of rheumatism or bladder trouble or any derangement of the kidneys whatever.

The prescription is simple and can be made up by anyone at home. The ingredients can be had at any good prescription pharmacy and all that is necessary is to shake them well in a bottle.

Here it is: Fluid extract dandelion, one-half ounce; compound kargon, one ounce; compound syrup sarsaparilla, three ounces.

Take a teaspoonful after each meal and at bedtime. A few doses is said to relieve almost any case of bladder trouble, frequent urination; pain and scalding, weakness and backache, pain above the kidneys, etc. It is now claimed to be the method of curing chronic rheumatism, because of its direct and positive action upon the eliminative tissues of the kidneys. It gives them life and power to sift and strain the poisonous waste matter and uric acid from the blood, relieving the worst forms of rheumatism and kidney and bladder troubles. The extract dandelion acts upon the stomach and liver and is used also extensively for relieving constipation and indigestion. Compound sarsaparilla cleans and enriches the blood. There is nothing better than Kargon Compound for the kidneys.

This prescription is safe to use at any time.

## Hexamethyleneteramine

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethyleneteramine is recognized by medical text books and authorities as a uric solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. H. P. Dunn. mwf

## CARROLL WRIGHT'S JEST.

Clark College President Used Mathematics to End Friction in a Choir.

When Colonel Carroll D. Wright, president of Clark college at Worcester, Mass., and former United States labor commissioner, was a young man he was appointed by the church with which he was connected chairman of the committee on music. He was no musician, but he was a mathematician, and he used mathematics to direct music.

He promptly made three of the committee members of the quartet. That removed the possibility of friction between the committee and the choir. He soon found, however, that there was some feeling between the committee and the soprano singer. Either was likely to exhibit sensitiveness if the other seemed to be assigned to solos the more frequently or more prominently.

When Easter Sunday came it so happened that the anthem which had been selected as suitable for the occasion contained very long soprano solos. The contralto soloist was plainly discontented. Noting this, the chairman of the music committee quietly whispered to her that he had made an accurate measurement of the number of inches of the soprano part and that he would see to it before the month was out that anthems were selected which not only harmonized with the religious needs of the occasion, but afforded an equal number of inches of contralto solo. "I am not much of a musician," Mr. Wright is said to have added, "but I am great on figures. You can trust me to equalize the account to the eighth of an inch."

This piece of waggishness, which naturally put an end to friction in the choir, furnished a key to Colonel Wright's success in life. This choir incident of his youth epitomizes his methods in handling all questions.

## MRS. TEAL BACK IN PRISON

Remanded to the Tombs While Jury Is Deliberating.

New York, Feb. 26.—After brief juggling up speeches by the lawyers and a still briefer charge to the jury by Judge Foster, the case of Mrs. Ben Teal, wife of a theatrical producer, charged with attempted subornation of perjury in connection with Mrs. Frank Gould's suit for divorce, went to the jury.

Mrs. Teal wept while her lawyer, in summing up, declared repeatedly that she was a much wronged woman and that all the witnesses against her in the case were "perjured enemies of this woman."

When no agreement appeared in sight, Judge Foster ordered the jury locked up for the night. Mrs. Teal was returned to the Tombs.

Mrs. Teal formerly was the wife of W. C. Toomey of St. Paul when he was private secretary to James J. Hill, the railroad magnate.

## NOVELTY IN AIRSHIPS

Unique Dirigible Being Construct-  
ed by Captain Baldwin.

## CRAFT FOR PLEASURE TOURS

Balloon Ordered by New York Yacht-  
man Will Be Equipped With Several  
Automobile Devices—Other Radical  
Departures—Machine to Hold Four  
People and Cost \$11,000.

That the time is rapidly approaching when the popular mode of pleasure touring will be aerial flights over the land instead of by motor cars on dusty highways received practical confirmation recently when an order was given by a member of the New York Yacht club to Captain Thomas P. Baldwin for a dirigible airship. It is required to carry three passengers besides the operator, and its maximum speed will be twenty miles an hour. The machine will cost about \$11,000 and will be finished in June.

This new pleasure airship, while constructed on the general lines of the government dirigible built by Captain Baldwin last year and accepted by the war department after the tests at Fort Myer, will embody many improvements, in the nature of "refinements in detail," as the automobilists say. Captain Baldwin has learned a few things, he says, from his past experience in building airships, and as this new creation is designed chiefly for pleasure he has worked out some interesting features, which will make the machine unique in its class.

The thing that will first attract the attention of the average observer will be the neat arrangement of the motor and the passenger quarters. The motor, a twenty horsepower Curtiss motor, water cooled and of four cylinders, will be covered with an aluminum hood, with the radiator in front similar to that of automobiles. The engine will also be equipped with a muffler. Both of these are entirely new departures in dirigibles.

Still another radical departure will be the arrangement of the passenger quarters, which will be directly behind the motor, resembling the cockpit of an open launch power boat. The cockpit will be inclosed by a railing around which will be upholstered seats for the three passengers, the operator occupying a seat in front at the wheel of the motor. Here, again, Captain Baldwin has devised a simple scheme for the operation of the machine that is far in advance of the method adopted in the government dirigible. One man will be able to manage the big airship, the wheel guiding the horizontal, left and right movements, while a lever conveniently arranged on the right hand side of the operator controls the vertical direction in rising to greater altitudes or descending.

The radical nature of these improvements may be better appreciated by contrasting this new machine with that of the government dirigible No. 1, where, it will be noticed, two men are required to manage the ship, the second man, who steers, being far to the rear, while the man at the motor controls the planes in front, causing the machine to rise or fall, as desired. There is no muffler on the engine of the government ship, and when in operation it is impossible for the two operators to hold any oral communication. Lieutenant Lahm has just had a speaking tube attached to the ship so that instructions may readily be un-

derstood by the two men.

The government machine is ninety-seven feet in length and of 19,000 cubic feet capacity. The new ship will be 100 feet long, the envelope having a capacity of 22,000 cubic feet, and the frame, which will be constructed of Oregon spruce, will be eighty feet long and four feet wide. It will be suspended at a much lower distance from the gas bag than has been done in other dirigibles. The cockpit for the passengers will be eight feet long. The planes will be situated four feet in front of the motor and will extend six feet on each side of the frame. A number of other improvements besides those mentioned have been worked out by Captain Baldwin, one of which will be attaching the crossbars in steel sockets, and when completed this 100 foot airship will exemplify the latest ideas in design and convenience of operation in dirigible balloon construction.

The motor is now being built at Hammondsport, N. Y., where the frame will also be constructed, and the balloon will be made in Captain Baldwin's shop at Tuckahoe. The gasoline tanks, carrying twenty gallons, will be placed under the seats, and the machine will be capable of making a seven hour trip without coming to earth for fresh supplies of fuel.—New York Times.

## WOMEN LOADED WITH IDEAS.

But Men Come Home Simply Loaded,  
Says Bishop Anderson.

Bishop Charles P. Anderson has added a unique contribution to the arguments in favor of woman suffrage. In an address the other night at Chicago to a men's club he took up the cudgels for the other sex.

"When men have an afternoon off they go to a ball game or a circus," he said. "When a woman has an afternoon to spend she goes to a meeting of the Browning club. The women come home loaded with ideas; the men come home simply loaded."

The bishop went on to say that there was as much reason why the women should get together and refuse to allow the men to vote as for the opposite condition to exist.

### Around the Whole World With Sixteen Battleships

REAR ADMIRAL ROBLEY D. EVANS.

The return home of the American fleet from its trip around the earth ends the greatest battle-ship cruise in the history of the world.

The distance covered has been approximately 43,000 nautical miles, or nearly 50,000 land miles, which if extended in a straight line would go twice around the earth at the equator.

The time consumed has been a few days over fourteen months, the start having been made on Dec. 16, 1907, from Hampton Roads, and the trip ending at the same point and in the same battle-ship formation on Washington's birthday, Feb. 22, 1909. President Roosevelt reviewed the fleet on its departure and again on its return.

During the entire cruise there was not an accident worth mention or an untoward event. The schedule prepared before the ships started was followed throughout. At one or two points, notably Yokohama, there was a variation of a few days due to storms. The delay was made up easily, however, and on other legs of the journey the vessels had to loaf to keep from coming in ahead of time.

The good effects of the cruise it is impossible fully to measure, but enough benefits are already apparent to pay for the extra cost of the trip, as has been said from Washington, many times over. This extra cost, by the way, has been only nominal, the chief item being coal. One more added cost has been in the transportation of food. Other outlays have been but little more than they would have been if the ships had remained at home.

It is estimated that the increased cost in coal has been about \$1,300,000, as approximately 365,000 tons have been burned, costing \$2,600,000, about half of which amount would have been required in home waters. Much of the extra expense was in transporting. Oil has cost approximately \$100,000 and food nearly \$200,000, little of which represents added outlay. The passage through the Suez canal cost \$130,000.

From this trifling expenditure has come an incalculable good. The beneficial effects of the cruise naturally fall under two heads—first, the diplomatic results or influence on the world at large; second, increased efficiency or influence on the fleet itself.

Of the diplomatic results the chief is the added respect of the world for the American navy. It is safe to say that no naval event outside of war has ever so much attracted the attention and admiration of all nations. At the beginning all sorts of pessimistic prophecies were made concerning it. The perfect manner in which it was carried out has changed all this to praise. It has advanced the cause of brotherhood. Its motto from the beginning has been that it was made for peace, not war. It has brought added friendship from all the lands visited. This was especially notable in South America, Australasia and Japan. It immeasurably helped the pan-American sentiment. It was taken by Australia and New Zealand to mean white supremacy in the Pacific. Its arrival in Japan was timed exactly to assist in bringing about the Japanese-American alliance.

As for the effect on the fleet, its value in training officers and men has been incalculable. Added efficiency in navigation, in economy and in marksmanship has been marked. The target tests at Magdalena and Manila bays not only showed the highest record in the American navy, but in the world. More than all else, it helped the fleet find its spirit. On this head Admiral Sperry says:

"This cruise marks an epoch in our naval annals, for the fleet has found itself—been welded into a unity. An aggregation of battleships irrespective of the power and efficiency of the individual units is not a fleet in the highest sense of the term until by long, faithful and harmonious work on the part of the personnel the spirit of the fleet has been developed. That now has been accomplished."

At the start the fleet was commanded by Rear Admiral Robley D. Evans—"Fighting Bob"—who said he was prepared "for a fight or a frolic." Because of ill health he was relieved at San Francisco and was succeeded by Rear Admiral Charles N. Thomas, who commanded but a few days when ill health also caused his retirement and ended his life shortly after. The command then devolved on Rear Admiral Charles S. Sperry, who took the fleet from San Francisco around the world.

Of the sixteen battleships that originally started on the cruise the Maine and Alabama dropped out at San Francisco, and their places were taken by the Nebraska and Wisconsin, both Pacific built ships.

The chief ports touched at in the cruise were Trinidad, Rio Janeiro, Punta Arenas, the southernmost port in the world; Valparaiso, where no stop was made; Callao, Magdalena bay; our own Pacific ports: Honolulu, Auckland, Sydney, Melbourne, Yokohama, Manila, the Suez ports; Messina, to relieve the earthquake sufferers; Gibraltar and home. At almost every point touched the enthusiasm was prodigious.

#### NEW LINCOLN MONEY.

One Cent Piece Bearing Martyr President's Portrait Simple Design.

Victor D. Brenner, the New York sculptor who made the Lincoln centennial medal, is the designer of the new one cent piece bearing Lincoln's portrait. He received word from Washington recently that his design had been accepted, with suggestions by President Roosevelt for several minor changes in the lettering. Mr. Brenner said that he considered the placing of Lincoln's likeness on the coinage much more symbolic of American ideals than the present design.

The new coppers have the bas-relief head of Lincoln in profile on the coin in place of the Indian. The word "Liberty" is to the left of the head, and to the right is the date "1909." On the reverse side at the top is the motto "E PLURIBUS UNUM," with underneath in the center the words "One Cent," in large letters, with a sheaf of wheat on each side.

It is believed that the Lincoln head has been used on only one coin before the five cent design in nickel of 1866. It is said that not more than five of the Lincoln five cent pieces were struck in nickel and that single impressions now sell for about \$12 each.

#### NONMAGNETIC SHIP.

Odd Construction of the Carnegie For Studying Compass Variations.

The Carnegie Institute is having built at Brooklyn for the study of phenomena of magnetic variations an auxiliary craft of 568 tons displacement, in the construction of which less than 600 pounds of steel or iron will be used. The vessel will be called the Carnegie and will be used chiefly for the study of compass variations. The use of steel and iron has been limited to the greatest possible extent so that observations will not be affected by the compass deflection usual on modern steel ships.

The Carnegie will be built of wood, with locust treenails and copper and bronze bolts. The anchors, plumbing and cabin fittings will also be bronze, and even the engines, with a few small exceptions, will be constructed of a special alloy called Victor vanadium bronze. Hemp cables will be used instead of anchor chains.

#### Honor For a Mexican Hero.

The government of Mexico has voted an appropriation of \$50,000 for a monument to a humble hero—Jesus Garcia, a locomotive engineer. Garcia a year ago bravely hooked his engine to a burning car filled with dynamite and hauled it out of Nacazari, Mexico. He saved the town from disaster, but was blown to pieces himself.

perfect manner in which it was carried out has changed all this to praise. It has advanced the cause of brotherhood. Its motto from the beginning has been that it was made for peace, not war. It has brought added friendship from all the lands visited. This was especially notable in South America, Australasia and Japan. It immeasurably helped the pan-American sentiment. It was taken by Australia and New Zealand to mean white supremacy in the Pacific. Its arrival in Japan was timed exactly to assist in bringing about the Japanese-American alliance.

As for the effect on the fleet, its value in training officers and men has been incalculable. Added efficiency in navigation, in economy and in marksmanship has been marked. The target tests at Magdalena and Manila bays not only showed the highest record in the American navy, but in the world. More than all else, it helped the fleet find its spirit. On this head Admiral Sperry says:

"This cruise marks an epoch in our naval annals, for the fleet has found itself—been welded into a unity. An aggregation of battleships irrespective of the power and efficiency of the individual units is not a fleet in the highest sense of the term until by long, faithful and harmonious work on the part of the personnel the spirit of the fleet has been developed. That now has been accomplished."

At the start the fleet was commanded by Rear Admiral Robley D. Evans—"Fighting Bob"—who said he was prepared "for a fight or a frolic." Because of ill health he was relieved at San Francisco and was succeeded by Rear Admiral Charles N. Thomas, who commanded but a few days when ill health also caused his retirement and ended his life shortly after. The command then devolved on Rear Admiral Charles S. Sperry, who took the fleet from San Francisco around the world.

Of the sixteen battleships that originally started on the cruise the Maine and Alabama dropped out at San Francisco, and their places were taken by the Nebraska and Wisconsin, both Pacific built ships.

The chief ports touched at in the cruise were Trinidad, Rio Janeiro, Punta Arenas, the southernmost port in the world; Valparaiso, where no stop was made; Callao, Magdalena bay; our own Pacific ports: Honolulu, Auckland, Sydney, Melbourne, Yokohama, Manila, the Suez ports; Messina, to relieve the earthquake sufferers; Gibraltar and home. At almost every point touched the enthusiasm was prodigious.

REAR ADMIRAL CHARLES S. SPERRY.

#### COSTLY GIFT FOR UNCLE SAM.

Gem Studded Rug, Worth \$50,000, Presented to the White House.

What is said to be one of the most costly gifts to the nation by an individual was recently accepted by President Roosevelt at the White House. H. H. Topakyan, a wealthy Armenian connoisseur and a personal friend of the president, presented an imperial silk jeweled Persian rug, said to be the finest in texture and weave in the world.

The rug, which is valued at \$50,000, contains twenty-four square feet of unblemished Persian silk. It is studded with strings of sapphires, rubies, emeralds and turquoises, surrounded by ropes of pearls, causing the color design, which is modeled after the interior of a Turkish mosque, to run into delicate shades of rose, green and horizon blue. The whole effect is one of indescribable softness and richness.

The rug, which is hand woven, represents the labor of an entire Persian family for five years. It was originally intended for use as a wall tapestry in the palace of the shah of Persia, but it struck Mr. Topakyan's fancy on one of his trips to the orient, and after a great deal of trouble he succeeded in purchasing it and bringing it to America. A framework of mahogany has been built around the rug, and it may be used as a hanging tapestry in the White House reception room.

#### SETON BEAM FOR ROOSEVELT.

Device Determines Weight and Measurement of Animals Accurately.

Ernest Thompson Seton of Greenwich, Conn., has presented to President Roosevelt a sportsman's weigh beam for use on his South African expedition. It is called the Seton beam and is the invention of the naturalist.

By the use of this beam animals up to 300 pounds may be weighed to within half an ounce of accuracy. The outfit itself weighs but one and three-quarter pounds and is on the pure gravity principle, without spring. It also provides for the measurement of the animals.

#### Race Transplanting Test.

A British religious organization is trying to transplant a race by encouraging the emigration of the Lapps from Lapland, where they are in danger of extinction to Labrador and Newfoundland.

#### Groundhog Night in Missouri.

Mrs. William Berry of Bellflower, Mo., who is a widow, and consequently a trapper, caught seven groundhogs in her seven steel traps a few nights ago.

#### CELEBRATES ITS CENTENARY.

Church in Which "America" First Was Sung.

Boston, Feb. 26.—Completing a century of existence today the famous Park Street church of this city will begin to celebrate its centennial tonight. The festivities in connection with the centennial will continue for a week.

The Park Street church is one of the most noted of American churches. It is marked as the building in which "America" was first sung in public and it was in this church that William Lloyd Garrison, the famous abolitionist, made his first public address against slavery. The church is Congregationalist in denomination and has had several famous preachers.

#### GRAIN AND PROVISION PRICES

Minneapolis Wheat.

Minneapolis, Feb. 25.—Wheat—May, \$1.13 1/4; July, \$1.14 1/4. On track—No. 1 hard, \$1.15 1/4; No. 2 Northern, \$1.14 1/4; No. 3 Northern, \$1.12 1/4; No. 4 Northern, \$1.09 1/4.

St. Paul Union Stock Yards.

St. Paul, Feb. 25.—Cattle—Good to choice steers, \$5.50@6.25; fair to good, \$4.50@5.00; good to choice cows and heifers, \$4.00@5.00; veals, \$5.25@6.25. Hogs—\$6.00@6.45. Sheep—Wethers, \$5.00@5.50; yearlings, \$6.00@6.50; lambs, \$7.00@7.40.

Duluth Wheat and Flax.

Duluth, Feb. 25.—Wheat—To arrive and on track—No. 1 hard, \$1.15 1/4; No. 2 Northern, \$1.14 1/4; No. 3 Northern, \$1.12 1/4; No. 4 Northern, \$1.09 1/4. Flax—To arrive and on track, \$1.69 1/2; May, \$1.69; July, \$1.67; Sept., \$1.64; Oct., \$1.59.

Chicago Grain and Provisions.

Chicago, Feb. 25.—Wheat—May, \$1.16 1/4; July, \$1.04 1/4@1.04 1/4; Sept., 98 1/2@98 3/4; Dec., 99 1/4. Corn—Feb., 62 1/2; May, 66 1/4@66 1/4; July, 65 1/2; Sept., 65 1/2. Oats—May, 54 1/4@54 1/4; July, 49 1/4@49 1/4; Sept., 49 1/4. Pork—May, \$17.15; July, \$17.20@17.25. Butter—Creameries, 22@28 1/2; dairies, 21@25. Eggs—24@24 1/2. Poultry—Turkeys 17c; chickens, 14c; springs, 15 1/2c.

Chicago Union Stock Yards.

Chicago, Feb. 25.—Cattle—Beef, \$4.50@7.00; Texas steers, \$4.30@5.40; Western steers, \$4.10@5.60; stockers and feeders, \$3.45@5.50; cows and heifers, \$1.90@5.65; calves, \$6.00@15.00. Hogs—Light, \$6.15@6.55; mixed, \$6.26@6.70; heavy, \$6.30@6.70; rough, \$6.30@6.45; good to choice heavy, \$6.45@6.70; pigs, \$5.20@6.10. Sheep, \$3.25@5.70; yearlings, \$6.00@7.15; wabs, \$5.75@7.75.

Root the Guest of Honor.

Albany, N. Y., Feb. 26.—United State Senator Elect Root was the guest of honor at the annual dinner of the Albany county Republican organization. State officers, members of the legislature and prominent Republican leaders from various sections as the state were in attendance.

### Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart must continue to fail, and the stomach and kidneys also have these same controlling nerves. Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—the popular prescription—is alone directed to these weak and wasting nerve centers. It builds up strength; it cures real, genuine heart failure. If you would have strong hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

### UNDERGOES A SEVERE ORDEAL

Colonel Cooper Subjected to a  
Grilling Cross-Examination.

### TURNED OVER TO HIS COUNSEL

Aged Defendant in Murder Trial Will  
Be Subjected to a Brief Redirect Examination, After Which the Prosecution May Again Cross-Examine Him. Showed Signs of Distress Toward the Close of His Ordeal.

Nashville, Tenn., Feb. 26.—After nearly two days under one of the most searching cross-examinations ever heard in a Tennessee court, Colonel Duncan B. Cooper was surrendered to his own counsel by the state. The case against the Coopers and John D. Sharp for the slaying of former Senator E. W. Carmack will be resumed with the aged defendant still upon the stand. His counsel have decided upon a redirect examination, promising to be brief. Whether the state will cross-examine again and if so how long it will last, will depend, of course, upon what Colonel Cooper's own counsel bring out. Immediately after Colonel Cooper is finally dismissed from the stand, Governor Patterson and his adjutant general, Colonel Tulley Brown, will be called to tell what part they played in this political tragedy. Colonel Brown was in James Bradford's office at the conference which began at 3 p. m. the day of the tragedy and closed only twenty minutes before the killing. Just as the conference closed Governor Patterson telephoned for Colonel Cooper. It is the defense's theory that while going to the governor's mansion, the Coopers met Senator Carmack and that the killing resulted.

Toward the close of the ordeal, Colonel Cooper began to show signs of distress. Before time for the luncheon adjournment he asked the court to take a recess until 2 p. m. that he might rest and recover his strength. While he appeared fresh and restored when he again took the stand in the afternoon, he soon began to weaken physically. He gave frequent displays of temper, disregarded the orders of his own counsel, his voice became sharp and his manner pettish. The state's attorneys, to add to his annoyance, jumped from one point of his narrative to another, asked disconnected and involved questions, but finally gave up the task and left the witness, perspiring, flushed and angered, but self-satisfied.

Counsel for the defense stated that they required a few hours to meet the new charges brought by the state, and promised to make the redirect examination very brief. Upon this assurance Judge Hart ordered an adjournment.

#### Sperry Goes to Washington.

Fort Monroe, Va., Feb. 26.—Rear Admiral Charles S. Sperry, who brought the American battleship fleet from San Francisco to Hampton Roads, has left for Washington and the ship's carpenter on board the flagship Connecticut began to box up the admiral's belongings. The impression grows in the fleet that Admiral Sperry soon will haul down his flag.

### TAFT CABINET COMPLETED

Franklin MacVeagh Accepts Treasury Portfolio.

New York, Feb. 26.—All qualifications of uncertainty in the prediction that Franklin MacVeagh of Chicago has been selected by Mr. Taft as his secretary of the treasury are hereby removed. Mr. MacVeagh has accepted the place and thereby the Taft cabinet has been made complete as heretofore announced.

No official or unofficial declaration of Mr. MacVeagh's appointment is to be made by Mr. Taft until he promulgates his entire cabinet. But in this case, as in other notices of appointments, the facts are known to be correct.

With his postmaster general, Frank H. Hitchcock, Mr. Taft took a five-mile walk through Central Park through the biting wind. He saw a number of New York city financiers during the day, but said the calls were those to express friendship and had no other significance.

There was a genuine reunion of the Taft family at the Henry W. Taft residence. The New York lawyer's wife and daughter returned from an extended European trip; C. P. Taft, his wife and daughter are here from Cincinnati, and Mrs. William H. Taft, wife of the president elect, arrived from Philadelphia. After the home dinner the reunited families spent the entire evening at home enjoying the exclusiveness of their own society.

### FILIBUSTER BY DEMOCRATS

Prevents Completion of Consideration of Sundry Civil Bill.

Washington, Feb. 26.—Long after midnight the house labored to complete consideration of the sundry civil bill, in the face of a good natural filibuster carried on by the Democrats.

The Democrats after midnight offered scores of amendments, none of which were adopted, but which inspired Chairman Tawney to "lecture" the Democrats for their "levity." He urged them to consider the bill conscientiously as representatives of the people should in order that the senate might be given proper time to consider the bill.

As shown in reply Representative Williams immediately offered an amendment to increase the appropriation of \$15,000 for extraordinary repairs on the White House to \$25,000 and to authorize the use of this money for a "whitewashing" at the White House. "When we are providing money in favor of this administration cleaning up," he said, "I am not in favor of parsimony."

Representative Gaines of Tennessee delivered a speech on Andrew Jackson and Representative Byrd of Mississippi, in the course of a speech in which he stode from one side of the chamber to the other, denounced the attitude of the American government on the Japanese question as the "most humiliating exhibition of obsequious servility of any party ever in power." Several yells followed the speech.

A motion by Representative Clayton of Alabama that the committee of the whole in which the house was sitting rise was voted down, 27 to 61.

Vice President Elect Sherman appeared in the house at 1:30 a. m. for the first time during the night. His evening attire contrasted with the working clothes of the other members.

A long fight occurred on the appropriation for the establishment of a big military camp at Pine Plains in Northern New York. It was finally agreed to.

At 3:21 Chairman Tawney gave up the attempt to pass the bill and the house took a recess.

### OPERATIONS OF SECRET SERVICE

House Votes in Favor of Restricting Them.

### BITTER ATTACK ON ROOSEVELT

Made by Representatives Cook of Colorado and Smith of Iowa, the Latter Becoming so Denunciatory of the President That He Was Denied the Privilege of Continuing His Remarks.

Washington, Feb. 26.—By an overwhelming vote, and without party distinction the house of representatives sustained the committee on appropriations in again reporting a provision in the sundry civil appropriation bill restricting the operations of the secret service detectives of the treasury department. The president was scathingly denounced by Mr. Cook, Republican, Colorado, while Mr. Smith, Republican, Iowa, a member of the appropriations committee and one of those named by the president in his message of Jan. 4, last, as being responsible for the secret service limitation, seemingly employed all the invective at his command in an attack on that service. He compared the secret service detectives with "common liars," declared them to be worthless and pointed to the assassination of President McKinley as a sample of the watchfulness and capacity of those men, one of whom, he said, stood at the president's side when he was shot down and failed to observe the approach of the assassin with his supposedly bandaged hand in full view.

He referred to the assassination of President McKinley and seemed to throw into his remarks all the venom he possessed. Then, with the expression of bitterness still on his countenance, he slowly remarked:

"But it took a man with a black skin to capture the assassin."

Mr. Smith suggested that if detectives were necessary to hunt down jurors they should be assigned by the department of justice and not be taken from the force in the counterfeit section of the treasury department.

"Wouldn't that," interjected Mr. Stanley of Kentucky, with sarcasm, "interfere with the mystery, sensationalism and attractiveness of the secret service?"

Joining in the laughter which followed this sally, Mr. Smith, continuing, said that in prior years the abuse of the field of operation of the secret service was only incidental, but that now it had become an enormity.

Mr. Cook in the course of his remarks frequently referred to the president in most uncomplimentary phrases. So denunciatory of the president was Mr. Cook that he was denied the privilege of continuing his remarks after he had spoken but a few minutes.

The conference report on the post-office appropriation bill was agreed to during the day and the naval bill was sent back for further conference.

She—What are you laughing at?  
He—I was at the photographer's today with my mother-in-law, and he told her to look pleasant.

Mr. Smith suggested that if detectives were necessary to hunt down jurors they should be assigned by the department of justice and not be taken from the force in the counterfeit section of the treasury department.

"Wouldn't that," interjected Mr. Stanley of Kentucky, with sarcasm, "interfere with the mystery, sensationalism and attractiveness of the secret service?"

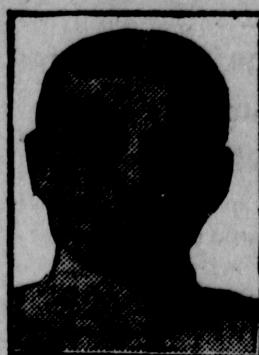

Joining in the laughter which followed this sally, Mr. Smith, continuing, said that in prior years the abuse of the field of operation of the secret service was only incidental, but that now it had become an enormity.

Mr. Cook in the course of his remarks frequently referred to the president in most uncomplimentary phrases. So denunciatory of the president was Mr. Cook that he was denied the privilege of continuing his remarks after he had spoken but a few minutes.

The conference report on the post-office appropriation bill was agreed to during the day and the naval bill was sent back for further conference.

She—What are you laughing at?  
He—I was at the photographer's today with my mother-in-law, and he told her to look pleasant.

## Around the Whole World With Sixteen Battleships

REAR ADMIRAL ROBLEY D. EVANS.

THE return home of the American fleet from its trip around the earth ends the greatest battleship cruise in the history of the world.

The distance covered has been approximately 43,000 nautical miles, or nearly 50,000 land miles, which if extended in a straight line would go twice around the earth at the equator.

The time consumed has been a few days over fourteen months, the start having been made on Dec. 16, 1907, from Hampton Roads, and the trip ending at the same point and in the same battleship formation on Washington's birthday, Feb. 22, 1909. President Roosevelt reviewed the fleet on its departure and again on its return.

During the entire cruise there was not an accident worth mention or an untoward event. The schedule prepared before the ships started was followed throughout. At one or two points, notably Yokohama, there was a variation of a few days due to storms. The delay was made up easily, however, and on other legs of the journey the vessels had to loaf to keep from coming in ahead of time.

The good effects of the cruise it is impossible fully to measure, but enough benefits are already apparent to pay for the extra cost of the trip, as has been said from Washington, many times over. This extra cost, by the way, has been only nominal, the chief item being coal. One more added cost has been in the transportation of food. Other outlays have been but little more than they would have been if the ships had remained at home. It is estimated that the increased cost in coal has been about \$1,300,000, as approximately 365,000 tons have been burned, costing \$2,600,000, about half of which amount would have been required in home waters. Much of the extra expense was in transporting oil. Oil has cost approximately \$100,000 and food nearly \$200,000, little of which represents added outlay. The passage through the Suez canal cost \$130,000.

From this trifling expenditure has come an incalculable good. The beneficial effects of the cruise naturally fall under two heads—first, the diplomatic results or influence on the world at large; second, increased efficiency or influence on the fleet itself.

Of the diplomatic results the chief is the added respect of the world for the American navy. It is safe to say that no naval event outside of war has ever so much attracted the attention and admiration of all nations. At the beginning all sorts of pessimistic prophecies were made concerning it. The

perfect manner in which it was carried out has changed all this to praise. It has advanced the cause of brotherhood. Its motto from the beginning has been that it was made for peace, not war. It has brought added friendship from all the lands visited. This was especially notable in South America, Australasia and Japan. It immeasurably helped the pan-American sentiment. It was taken by Australia and New Zealand to mean white supremacy in the Pacific. Its arrival in Japan was timed exactly to assist in bringing about the Japanese-American alliance.

As for the effect on the fleet, its value in training officers and men has been incalculable. Added efficiency in navigation, in economy and in marksmanship has been marked. The target tests at Magdalena and Manila have not only showed the highest record in the American navy, but in the world. More than all else, it helped the fleet find its spirit. On this head Admiral Sperry says:

"This cruise marks an epoch in our naval annals, for the fleet has found itself—been welded into a unity. An aggregation of battleships irrespective of the power and efficiency of the individual units is not a fleet in the highest sense of the term until by long, faithful and harmonious work on the part of the personnel the spirit of the fleet has been developed. That now has been accomplished."

At the start the fleet was commanded by Rear Admiral Robley D. Evans—"Fighting Bob"—who said he was prepared "for a fight or a frolic." Because of ill health he was relieved at San Francisco and was succeeded by Rear Admiral Charles N. Thomas, who commanded but a few days when ill health also caused his retirement and ended his life shortly after. The command then devolved on Rear Admiral Charles S. Sperry, who took the fleet from San Francisco around the world.

Of the sixteen battleships that originally started on the cruise the Maine and Alabama dropped out at San Francisco, and their places were taken by the Nebraska and Wisconsin, both Pacific built ships.

The chief ports touched at in the cruise were Trinidad, Rio Janeiro, Punta Arenas, the southernmost port in the world; Valparaiso, where no stop was made; Callao, Magdalena bay; our own Pacific ports: Honolulu, Auckland, Sydney, Melbourne, Yokohama, Manila, the Suez ports; Messina, to relieve the earthquake sufferers; Gibraltar and home. At almost every point touched the enthusiasm was prodigious.

### NEW LINCOLN MONEY.

One Cent Piece Bearing Martyr President's Portrait Simple Design.

Victor D. Brenner, the New York sculptor who made the Lincoln centennial medal, is the designer of the new one cent piece bearing Lincoln's portrait. He received word from Washington recently that his design had been accepted, with suggestions by President Roosevelt for several minor changes in the lettering. Mr. Brenner said that he considered the placing of Lincoln's likeness on the coinage much more symbolic of American ideals than the present design.

The new coppers have the bas-relief head of Lincoln in profile on the coin in place of the Indian. The word "Liberty" is to the left of the head, and to the right is the date "1909." On the reverse side at the top is the motto "E Pluribus Unum," with underneath in the center the words "One Cent," in large letters, with a sheaf of wheat on each side.

It is believed that the Lincoln head has been used on only one coin before the five cent design in nickel of 1866. It is said that not more than five of the Lincoln five cent pieces were struck in nickel and that single impressions now sell for about \$12 each.

### NONMAGNETIC SHIP.

Odd Construction of the Carnegie For Studying Compass Variations.

The Carnegie Institute is having built at Brooklyn for the study of phenomena of magnetic variations an auxiliary craft of 568 tons displacement, in the construction of which less than 600 pounds of steel or iron will be used. The vessel will be called the Carnegie and will be used chiefly for the study of compass variations. The use of steel and iron has been limited to the greatest possible extent so that observations will not be affected by the compass deflection usual on modern steel ships.

The Carnegie will be built of wood, with locust treenails and copper and bronze bolts. The anchors, plumbing and cabin fittings will also be bronze, and even the engines, with a few small exceptions, will be constructed of a special alloy called Victor vanadium bronze. Hemp cables will be used instead of anchor chains.

Honor For a Mexican Hero.  
The government of Mexico has voted an appropriation of \$50,000 for a monument to a humble hero—Jesus Garcia, a locomotive engineer. Garcia a year ago bravely hooked his engine to a burning car filled with dynamite and hauled it out of Nacazari, Mexico. He saved the town from disaster, but was blown to pieces himself.

perfect manner in which it was carried out has changed all this to praise.

It has advanced the cause of brotherhood. Its motto from the beginning has been that it was made for peace, not war. It has brought added friendship from all the lands visited. This was especially notable in South America, Australasia and Japan. It immeasurably helped the pan-American sentiment. It was taken by Australia and New Zealand to mean white supremacy in the Pacific. Its arrival in Japan was timed exactly to assist in bringing about the Japanese-American alliance.

As for the effect on the fleet, its value in training officers and men has been incalculable. Added efficiency in navigation, in economy and in marksmanship has been marked. The target tests at Magdalena and Manila have not only showed the highest record in the American navy, but in the world. More than all else, it helped the fleet find its spirit. On this head Admiral Sperry says:

### COSTLY GIFT FOR UNCLE SAM.

Gem Studded Rug, Worth \$50,000, Presented to the White House.

What is said to be one of the most costly gifts to the nation by an individual was recently accepted by President Roosevelt at the White House. H. H. Topakyan, a wealthy Armenian connoisseur and a personal friend of the president, presented an imperial silk jeweled Persian rug, said to be the finest in texture and weave in the world.

The rug, which is valued at \$50,000, contains twenty-four square feet of unblemished Persian silk. It is studded with strings of sapphires, rubies, emeralds and turquoises, surrounded by ropes of pearls, causing the color design, which is modeled after the interior of a Turkish mosque, to run into delicate shades of rose, green and horizon blue. The whole effect is one of indescribable softness and richness.

The rug, which is hand woven, represents the labor of an entire Persian family for five years. It was originally intended for use as a wall tapestry in the palace of the shah of Persia, but it struck Mr. Topakyan's fancy on one of his trips to the orient, and after a great deal of trouble he succeeded in purchasing it and bringing it to America. A framework of mahogany has been built around the rug, and it may be used as a hanging tapestry in the White House reception room.

### SETON BEAM FOR ROOSEVELT.

Device Determines Weight and Measurement of Animals Accurately.

Ernest Thompson Seton of Greenwich, Conn., has presented to President Roosevelt a sportsman's weigh beam for use on his South African expedition. It is called the Seton beam and is the invention of the naturalist.

By the use of this beam animals up to 300 pounds may be weighed to within half an ounce of accuracy. The outfit itself weighs but one and three-quarter pounds and is on the pure gravity principle, without spring. It also provides for the measurement of the animals.

Race Transplanting Test.  
A British religious organization is trying to transplant a race by encouraging the emigration of the Lapps from Lapland, where they are in danger of extinction to Labrador and Newfoundland.

Groundhog Night in Missouri.  
Mrs. William Berry of Bellflower, Mo., who is a widow, and consequently a trapper, caught seven groundhogs in her seven steel traps a few nights ago.

### CELEBRATES ITS CENTENARY

Church in Which "America" First Was Sung.

Boston, Feb. 26.—Completing a century of existence today the famous Park Street church of this city will begin to celebrate its centennial tonight. The festivities in connection with the centennial will continue for a week.

The Park Street church is one of the most noted of American churches. It is marked as the building in which "America" was first sung in public and it was in this church that William Lloyd Garrison, the famous abolitionist, made his first public address against slavery. The church is Congregationalist in denomination and has had several famous preachers.

### GRAIN AND PROVISION PRICES

Minneapolis Wheat.

Minneapolis, Feb. 25.—Wheat—May, \$1.13½; July, \$1.14@1.14½. On track—No. 1 hard, \$1.15½@1.16; No. 1 Northern, \$1.14½@1.15; No. 2 Northern, \$1.12½@1.13; No. 3 Northern, \$1.09@1.11.

St. Paul Union Stock Yards.

St. Paul, Feb. 25.—Good to choice steers, \$5.50@6.25; fair to good, \$1.50@5.00; good to choice cows and heifers, \$4.00@5.00; veals, \$5.25@6.25. Hogs—\$6.00@6.45. Sheep—Wethers, \$5.00@5.50; yearlings, \$6.00@6.50; lambs, \$7.00@7.40.

Duluth Wheat and Flax.

Duluth, Feb. 25.—Wheat—To arrive and on track—No. 1 hard, \$1.15½; No. 1 Northern, \$1.14½; No. 2 Northern, \$1.12½; May, \$1.13½; July, \$1.14½; Sept., \$1.01. Flax—To arrive and on track, \$1.69½; May, \$1.69; July, \$1.67; Sept., \$1.44; Oct., \$1.39.

Chicago Grain and Provisions.

Chicago, Feb. 25.—Wheat—May, \$1.16½; July, \$1.04½@1.04½; Sept., 98½@98½¢; Dec., 99½¢. Corn—Feb., 63½¢; May, 66½¢@66½¢; July, 65½¢; Sept., 65¢. Oats—May, 54½¢@54½¢; July, 49½¢@49½¢; Sept., 49½¢. Pork—May, \$17.15; July, \$17.20@17.22½. Butter—Creameries, 22@22½¢; dairies, 21@25¢. Eggs—21½¢@21½¢. Poultry—Turkeys, 17¢; chickens, 14¢; springs, 15½¢.

Chicago Union Stock Yards.

Chicago, Feb. 25.—Cattle—Beeves, \$4.50@7.00; Texas steers, \$4.30@5.40; Western steers, \$4.10@5.60; stockers and feeders, \$3.45@5.50; cows and heifers, \$1.90@5.65; calves, \$6.00@15.00. Hogs—Light, \$6.15@6.55; mixed, \$6.20@6.70; heavy, \$6.30@6.70; rough, \$6.30@6.45; good to choice heavy, \$6.45@6.70; pigs, \$5.20@6.10. Sheep, 3.25@5.70; yearlings, \$6.00@7.15; wethers, \$5.75@7.75.

Root the Guest of Honor.

Albany, N. Y., Feb. 26.—United State Senator Elect Root was the guest of honor at the annual dinner of the Albany county Republican organization. State officers, members of the legislature and prominent Republican leaders from various sections as the state were in attendance.

## Heart Strength

Heart strength, or Heart weakness, means Nerve strength, or Nerve weakness—nothing more. Relatively, not one weak heart in a hundred is, in fact, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart must continue to fail, and the stomach and kidneys also have their share of trouble.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, pounding heart disease. Dr. Shoop's Restorative is the popular prescription—is alone directed to the weak and wasting nerve centers. It builds up strength; it orders real, genuine heart help. If you would have strong heart, strong stomach, strong nerves—remember—take them as needed, with

Dr. Shoop's Restorative  
H. P. DUNN.
